Master of Science in Finance

Curriculum
The Master of Science in Finance degree program is designed for students with or without previous educational background in finance.

Many students select the Financial Management option, which provides a generalist approach to the degree while allowing flexibility to tailor the program to their needs. For students wanting a more focused program, six concentrations are available:

- Energy Risk Management
- Financial Analysis
- Financial Risk Management
- Investment Management
- Management of Financial Institutions
- Real Estate

Although these concentrations are not listed on the diploma or transcripts, the specified course sequences are designed to give the best possible preparation for the respective career paths and professional certifications. Students are recommended to focus only on the course work within a particular concentration in order to prepare for its associated certification.

Career Options
Graduates of the program seek positions such as: Budget Analyst; Business Analyst; Commodities Trader; Credit Analyst/Manager; Financial Analyst/Planner; Industrial Buyer; Insurance Agent; International Trade Specialist; Investment Banker; Loan Specialist; Mortgage Broker; Purchasing Agent; Real Estate Developer; Research Analyst; Securities Agent; Stock Broker; Treasurer; Trust Account Administrator; Trust Investment Office and Underwriter.

Degree Program
The MS in Finance requires the completion of a minimum of 36 semester credit hours.

For complete admission and degree requirements, view the Graduate Catalog at catalog.utdallas.edu.
