Master of Science in Healthcare Management

Curriculum
Healthcare is a challenging, rapidly growing industry that employs one of every 10 working adults nationally and is responsible for more than 15 percent of annual employment growth in Texas. The Master of Science in Healthcare Management degree program prepares industry leaders with a solid foundation in business analysis and decision — making, a thorough exposure to real-world healthcare management and rewarding professional development opportunities.

UT Dallas’ Naveen Jindal School of Management’s nationally recognized business faculty, together with a select group of highly experienced healthcare industry executives, prepare healthcare management MS graduates to assume increasingly responsible management and leadership roles in a wide range of healthcare settings.

Career Options
Graduates of the program seek positions such as: Management and leadership roles in a wide range of rapidly growing health-related organizations, including health and hospital systems, service provider organizations, insurers and managed care companies, consulting firms, pharmaceutical companies, public health organizations and medical device and biotechnology firms.

Degree Program
The MS in Healthcare Management requires the completion of a minimum of 36 semester credit hours.

For complete admission and degree requirements, view the Graduate Catalog at catalog.utdallas.edu.
