Master of Science in Management Sciences

Curriculum
The Master of Science in Management Sciences degree has been designed for students who want highly marketable technical expertise in 24 months. This degree program has:

- A focused set of required management courses that form a foundation for all students.
- Flexibility that allows students to choose elective courses from a variety of concentrations.
- Convenient class scheduling, including online classes.

The MS in Management Sciences degree program’s flexibility allows students to design a program of study that fits their specific needs. Unlike most of the MS degree programs, which have specific elective requirements, the MS in Management Sciences degree program allows students to choose their own course of study, pulling courses from the Jindal School Graduate Catalog to satisfy elective requirements. Students may choose to concentrate in one of the areas listed below:

- Accounting.
- Finance.
- Healthcare Administration.
- Information Technology Management.
- Innovation and Entrepreneurship.
- International Management.
- Leadership in Organizations.
- Marketing.
- Supply Chain/Operations Management.
- Organizations.
- Real Estate.
- Strategy.

The goal of the program is to help students acquire principles and techniques needed to develop creative solutions in a changing business environment, and contribute quickly to company success within their area of specialization.

Note: To apply for this degree program, an undergraduate business degree is not required.

Career Options
Graduates of the program seek positions such as: IT Project Manager; Marketing Researcher; Logistics/Professional Operations and HR Generalist.

Degree Program
The MS in Management Sciences requires the completion of a minimum of 36 semester credit hours. Students must maintain a 3.0 grade-point average in both core course and aggregate courses to qualify for the MS degree.

For complete admission and degree requirements, view the Graduate Catalog at catalog.utdallas.edu.
