Gina McCarley teaches AP Computer Science Principles, AP Computer Science, and Career Technical Courses at Lawrence County High School in Moulton, Alabama. Additionally, Gina teaches Introduction to Programming and APCS-A for the Alabama Virtual School via the Alabama ACCESS program for the Northern region of the state. Gina has been working in education since leaving industry in 1999. Gina serves as a mentor teacher for CS4Alabama’s launch of Computer Science Principles course and was a pilot teacher in the CollegeBoard National Pilot of AP Computer Science Principles Phase II.

In the classroom, Gina uses multimedia tools to engage student interest and participation. Some of her most successful projects involve her students using multimedia tools to express themselves creatively and to document their exploration in problem base inquiry.
