

CLAP: Cochlear implant Language Advancement Program

UT Dallas Callier Center for Communication Disorders

CLAP:

- Is a group program for children ages 18 months to 3 years with cochlear implants.
- Supplements individual aural (re)habilitation and speech-language therapy.
- Focuses on increasing listening, language and speech skills without the use of visual communication.
- Includes a weekly parent training session.

Parental involvement is vital in the development of a child's listening, language and speech skills. That's why CLAP includes a weekly parent training session.

Parent sessions take place every Wednesday from 9 a.m. - 9:30 a.m.

When: Mondays and Wednesdays
August 31 to November 18
8:30 a.m. - 10 a.m.

Where: Callier Center Dallas
1966 Inwood Road
Dallas, Texas 75235

Contact: Shannon Raby
