

Let us help your
child learn the skills
needed to succeed
in school.

Callier Center for Communication Disorders

SKILL: Strategic Knowledge In Listening and Learning

SKILL is a nine-week group program designed for school-age kids (ages 7-12) who need help with listening and organizational skills.

The program will focus on:

- Identifying key words for increased understanding
- Organizing time and belongings for increased efficiency
- Listening and following directions
- Improving self-advocacy skills

Children who may benefit from this program include those with diagnoses of:

- Auditory processing disorder
- Language disorder
- Attention deficit disorder
- Learning disability

Date: Begins Sept. 1, 2009
One day per week for nine weeks
Mondays or Tuesdays after school
1 hour per session

Where: Callier Center Dallas
1966 Inwood Road
Dallas, TX 75235

Callier Center Richardson
811 Synergy Park Blvd.
