What is SKILL?
SKILL is a program for children ages 7 to 10 years and teens ages 11 to 14 years to work on strategies for listening, remembering, organization, planning, and self-monitoring. Most children in SKILL are working on application of knowledge rather than building language skills. SKILL is conducted by a licensed speech-language pathologist with the support of graduate student clinicians.

SKILL focuses on:
• Identifying key words and ideas for increased understanding
• Organizing time and belongings for increased efficiency
• Listening and following directions
• Improving self-advocacy skills
• Awareness of strengths

Evaluation Requirement:
An intake assessment is required for all new patients. The cost of the intake is $50 and is not insurance eligible. To schedule an assessment, please call the Richardson location at 972-883-3630.
