About the SLICK Program

SLICK is a six-week, intensive language therapy program for children who have language and learning disorders.

The camp is for children who have finished 1st grade through children who have finished 6th grade.

Our mission is to provide a fun learning environment and to build children’s language skills through literacy-based activities.

The SLICK Program...

- Is a program developed by speech-language pathologists who tailor therapy to each child’s individual needs.

- Addresses language goals such as following directions, listening comprehension, reading comprehension, vocabulary, identifying the main idea, summarizing and problem solving.

- Incorporates each child's goals into every part of the day.

- Is run by UT Dallas graduate students under the supervision of licensed speech-language pathologists.

Evaluation

Children must have had a recent speech-language evaluation (within 6 months) which must be submitted prior to registration.

To schedule an evaluation at the Callier Center, call our Dallas location at 214-905-3030 or our Richardson location at 972-883-3630.
