

Master of Science in Applied Sociology

<http://www.utdallas.edu/dept/socsci/>

Faculty

Professors: Donald A. Hicks, Murray J. Leaf, Kimberly Kempf-Leonard, Lawrence J. Redlinger, Richard K. Scotch, Paul Tracy

Associate Professors: Bobby C. Alexander, Philip K. Armour, Bruce Jacobs, Paul Jargowsky

Assistant Professors: Roxanne Ezzet-Lofstrom, Karen Hayslett-McCall, Melinda D. Kane, Danielle Lavin-Loucks, Sheryl Skaggs

Objectives

The M.S. in Applied Sociology is designed to prepare students for employment in the nonprofit and public sectors, as well as related for-profit settings, by providing training in applied social research, statistics, and program evaluation; sociological theory as it relates to social problems, social policy, and social institutions; and in substantive fields such as health care, education, criminal justice, mental health, social welfare, youth development, and community development. The degree program develops skills and competencies which also can lead to further study in doctoral programs in the Social Sciences, including the doctoral program in Public Policy and Political Economy at UT-Dallas.

Facilities

Students have access to the computing facilities in the School of Economic, Political and Policy Sciences and the University's Computing Center. The School has two computing laboratories which have over 30 computers that are network linked and equipped with major social science software packages, including E-Views, R, Rats, SPSS and STATA. A computerized geographic information system, the Lexis Nexis Database, and WestLaw are also available for student use. The University's Computing Center provides personal computers and UNIX Workstations. Many important data and reference materials are also available online via the library's and School's memberships in numerous organizations.

Prerequisites

There are no required prerequisite courses in sociology for the Applied Sociology program, although prior coursework in social theory, research methods, and social statistics are desirable. Prospective students with concerns about their preparation for the Applied Sociology program are encouraged to consult with the program coordinator.

Transfer Policies

Students who have previous graduate work pertinent to the requirements of the Applied Sociology degree may be given up to 15 hours of transfer credit, and the hours of coursework required for the degree will be reduced accordingly. Students desiring to transfer graduate courses thought to be equivalent to core courses may be required to demonstrate competency through examination. The award of such transfer credit must be consistent with the University's "Transfer of Credit" policy.

Degree Requirements

The University's general degree requirements are discussed [here](#).

The Master of Science (M.S.) in Applied Sociology has three components and requires the completion of 36 semester credit hours: 12 credit hours of core courses in Applied Sociology, 15 credit hours of Applied Sociology guided electives, and 9 credit hours of Economic, Political and Policy Sciences electives. Students must achieve at least a 3.0 grade point average in the Applied Sociology core courses and an overall grade point average of 3.0 to graduate.

Core Courses in Applied Sociology (12 hours):

POEC 5313 Descriptive and Inferential Statistics for the Economic, Political and Policy Sciences

SOC 6312 Social-Economic Theories

SOC 6350 Social Stratification

SOC 6352 Evaluation Research Methods in the Economic, Political and Policy Sciences

Or POEC 5310 Research Design I

Applied Sociology Guided Elective Courses (15 hours):

Any graduate-level courses with a SOC prefix outside of the core may be applied to this requirement. Students may apply other graduate social science courses with the permission of the program coordinator.

Social Science Electives (9 hours):

Any graduate-level courses in the School of Economic, Political and Policy Sciences may be applied to this requirement. Students are encouraged to consult with the program coordinator in order to select courses appropriate for their academic and professional career goals.
