

PRINTING AND PROCESSING

METHODS OF DUPLICATION

If the student wishes to use methods of producing the necessary copies other than Xerox, offset or laser printing, samples on the specified paper must be submitted to the Graduate Dean's Office for approval prior to reproduction of the thesis or dissertation. All copies must be free from evidence of error and corrections and from streaks or shadows resulting from the copying process. The student should make certain that each copy of the manuscript is properly collated and that no pages are missing or duplicated.

NOTE: Each of the copies required by the Graduate Dean's Office must have the **original** signatures of committee members on the signature page. **Although it is not mandatory, the committee members should sign in the same color ink, preferably black.**

MULTIPLE VOLUMES

Measuring the thickness of the manuscript will determine whether the thesis or dissertation will be more than one volume. If the manuscript is more than one volume, the first page of each additional volume should be an unnumbered title page duplicating the original title page. Pages of the text, numbered consecutively with the pages in the previous volume(s), immediately follow this title page. In multiple-volume theses/dissertations, the volume number (Volume I, Volume II, etc.) must be shown on each title page immediately following the title. (See Kate Turabian for format.)

SUBMISSION OF REQUIRED COPIES

Three unbound copies of the thesis and 3 copies of the dissertation are required by the Dean of Graduate Studies on or before the date specified in the Academic Calendar for each semester. The candidate should check with his/her Supervising Professor to see if other program copies may be required. At this time doctoral students who have not already done so are required to submit the Survey of Earned Doctorates form to the Office of Graduate Studies.

After the final approval of the manuscript by the Graduate Dean's Office, the student must take the approved copies to the copy center and pay the appropriate fees, including the cost of binding. This must be done prior to graduation. At the student's option, personal copies of the dissertation/thesis or copies for professors may be submitted to the copy center at this time. These copies must be suitably boxed before presentation for binding. Personal copies will be bound only in standard University colors.

After all copies of the dissertation/thesis have been bound, the Library will retain one hard copy; one hard copy will be sent to the student's Supervising Professor and one copy will be sent to the student's department/program office. Personal copies will be distributed according to the student's instructions at the time of submission to the copy center.

MICROFILMING THE DOCTORAL DISSERTATION AND MASTER’S THESIS

In order to protect the patent or other rights, the Dean of Graduate Studies can delay publication by microfilm for a period of up to one year. A letter requesting such a delay should be sent to the Graduate Dean by the candidate's Supervising Professor at least ten days prior to the anticipated graduation date.
