

Editing the Header

The header in eLearning is space at the top of main course content area where you can add a banner.

To add a header to your section, while in the Build tab, click the **[Page Options]** button in the main content area, then choose **“Edit Header”**.

Click the **[Enable HTML Creator]** to use the Word-like WYSIWYG editor that enables you to add text as well as images, web links, advanced formatting, and more.

Add your content to the header, then click the **[Save]** button. Your header will now appear at the top of the main content area.
