Visit UT Dallas
Campus Tours
Hosted walking tours of campus are offered each weekday, except University holidays, at 10 a.m. and 2 p.m. Tours last approximately one hour and include highlights of the University's academic programs, student life activities, construction projects and unique campus housing. Housing tours are offered each weekday at 1 p.m. beginning at Residence Hall West. High school groups may prearrange for various tours. To schedule a visit, go to utdallas.edu/tours. You can also see our virtual tour of utdallas.edu/virtualtour.

Prospective Student Events
Discover UT Dallas
Discover UT Dallas is hosted in several major cities across Texas to provide an introductory look into the academic and social opportunities for students at UT Dallas. This event is specifically designed for high school students, parents and community college students and is held throughout September and October.

Scholars’ Day
Scholars’ Day at UT Dallas is a premier open house event designed to showcase the University to prospective students and their families. At this event, guests are invited to tour the UT Dallas campus, attend academic and student life sessions led by UT Dallas faculty and staff members and meet current students involved in student organizations. High school seniors and community college students who attend the program can receive an application fee waiver for the upcoming year. This event is held in the fall semester.

Preview Friday
Preview Friday is hosted at UT Dallas and is designed for current and former college students interested in transferring into UT Dallas. Attendees receive detailed information about the transfer admission process, transfer credit, scholarships, financial aid and campus life. Students and family members also may attend an academic presentation given by their academic department of choice. Transfer students who attend Preview Friday may be eligible for a $50 application fee waiver for the next long semester.

For more information or to register for an event, visit utdallas.edu/enroll/events.

The University of Texas at Dallas is an equal opportunity/affirmative action university.
Your students are one of a kind, and we know it. That’s why we’ve developed a special guide that will include only the information most important to them—so they can make the best choices. They’ll have a customized information packet that details how UT Dallas can be the perfect fit.

Here’s how it works:

• They pick the academic areas they’re interested in studying.
• They add things like housing, athletics, and activities.
• They select a photo theme—from research, to campus scenes, to life in Dallas.
• They print their guide and share it in person or by e-mail with family and friends.

Send them to utdallas.edu/guide today to find out how they can create their own guide—and create their future at UT Dallas.

Make it personal. We do.
A Welcome to Counselors from Undergraduate Dean Andrew Blanchard

As a counselor, you understand that selecting a college can be a daunting experience. This book, and our online brochure, Create Your Own Guide to UT Dallas [utdallas.edu/guide], is meant to help you and your students discover what we offer and how we can work together to help students succeed.

UT Dallas’ growing reputation for excellence and diversity allows us to better serve our students, our community and our state.

We recognize and reward student merit, enabling student success to ensure an excellent undergraduate education for those who are willing to work hard. Some recent developments include:

• The Student Success Center (SSC) in the McDermott Library offers academic support services for all majors to improve and ensure academic success for UT Dallas students. The center offers peer-led team learning, supplemental instruction, individualized tutoring, one-on-one assistance with study strategies, workshops and courses. The SSC supports science, technology, engineering and mathematics (STEM) courses with both live and online resources, including a math lab with peer and professional tutors. The Writing Center provides assistance with any stage of the writing process for nearly any writing assignment.

• Five state-of-the-art residence halls, which complement the apartment living option, are available at the University. In Living Learning Communities, students in the same major or academic interest live together and support each other academically and socially.

UT Dallas offers excellence in four key areas:

Our students: UT Dallas’ undergraduate student profile matches or exceeds the quality of the state’s largest, best-known public universities.

Our programs: Our academic programs focus on the University’s core strengths, including science, technology, engineering, business education and research, while offering excellent opportunities in interdisciplinary programs and the arts.

Our faculty: Our faculty consists of some of the nation’s best scholars and researchers, including a Nobel laureate and members of the National Academy of Sciences and the National Academy of Engineering.

Our location: UT Dallas is located in one of the top four major metropolitan areas in the U.S. with one of the strongest regional economies in the country.

I hope you’ll find this book helpful in your work with students. Please let me know if you have any suggestions to improve this guide or if you have further questions. My email address is below.

Sincerely,

Dr. Andrew Blanchard
ugdean@utdallas.edu
Recent Graduates Reflect on Their Experiences

At UT Dallas, students from all walks of life have the opportunity to reach new heights. A few graduates reflect on what attracted them to the University and how their lives are enriched, thanks to their experiences here.

“Faculty and staff of UT Dallas are available to students and are always willing to offer advice, connections, etc. They truly want for you to be successful and to have a good college experience. I was able to be accepted into the Summer Medical and Dental Education Program (SMDEP) at the Yale School of Medicine and the Summer Internship Program at the Johns Hopkins School of Medicine because of the help, guidance and care of my mentors, advisors and faculty of UT Dallas.”

— Aaron Dotson BS’15
Neuroscience Pre-Medicine Graduate

“I believe that UTD’s value stems from the fact that any student who is willing to put in the work and initiative to achieve their goals is offered a plethora of opportunities to help them in their journey, such as the chance to work in research labs, internship programs, and pre-med and pre-dent departments. The environment at UT Dallas is amazing, the faculty is always readily available to help you, students support each other in difficult tasks and there are several organizations for socializing and student development.”

— Maria Burbano BS’15
Biomedical Engineering Graduate
Barry M. Goldwater Scholarship Recipient
“From our first day of school, this University has provided the most welcoming atmosphere possible. The faculty, the staff and the students are always more than eager to go out of their way to help—no matter who you are, where you are from, or even how hard it is to pronounce your name. It didn’t take long before UTD became home for many of us.”

— Yehia Mokhtar BS’15
Political Science and International Political Economy Graduate

“I was privileged to have worked and learned with students and faculty members who acknowledge and cherish this community — a community that values personal and professional growth, interpersonal relationships, and an unparalleled learning experience. Being able to immerse myself in this community has allowed me to confidently step in to the ‘real world’ with the proper knowledge and training I need to succeed. With the help of student organizations and faculty members, I was even able to land a job before graduating.”

— Angela Kou BA’16
Emerging Media and Communication Graduate

About UT Dallas

The University of Texas at Dallas, in the heart of North Texas, is an innovative institution made up of eight schools.

UT Dallas has grown since its founding in 1969 to include more than 135 degree programs, with cutting-edge curricula serving a variety of undergraduate and graduate student interests. The University is committed to providing some of the state’s most-lauded science and engineering programs, but it also has gained prominence in a breadth of educational paths, from criminology to biomedical engineering to arts and technology and business.

The wealth of learning resources available to UT Dallas students is the result of a concentrated effort to attract the top minds on both sides of the classroom. Joining the faculty’s Nobel laureate and National Academies members are more than 500 tenured and tenure-track professors hailing from the world’s best colleges, including: Harvard, MIT, Cambridge and Columbia University. In addition, UT Dallas is home to more than 50 centers, labs and institutes that facilitate research and provide valuable opportunities for hands-on learning.

Students, meanwhile, arrive at UT Dallas well-prepared to succeed in higher education. In 2015, 33 percent of freshmen ranked in the top 10 percent of their high school class, and 64 percent ranked in the top 25 percent. The University’s ability to attract and retain excellent students has propelled UT Dallas into national prominence within a few short years. Kiplinger’s Personal Finance Magazine and The Princeton Review have ranked UT Dallas among its best values for public colleges nationally, and Times Higher Education’s list of top universities under 50 years of age ranks the University #1 in Texas, #2 in the nation and #24 in the world. U.S. News & World Report placed UT Dallas among the top 25 universities in the country with the fewest students carrying debt after graduation.

An institution of extraordinary quality and excellence, The University of Texas at Dallas produces successful graduates who are prepared to take leadership roles in science, business, research, the arts and the global community.

Gaining Admission

We want to help you assist your students.

**To apply, most prospective undergraduates will need to do the following:**

- Complete and submit an application at [www.applytexas.org](http://www.applytexas.org).

- An official transcript is required from each high school and college attended. The transcript must be sent electronically by the institution or mailed in a sealed envelope with the school seal or signature from the issuing institution on the back side of the envelope and sent to:

  **The University of Texas at Dallas**
  **Office of Admission and Enrollment**
  **800 W Campbell Rd**
  **Richardson TX 75080-3021**

- Send official SAT or ACT scores either via the testing agency or listed on the official transcript. When sending scores from the testing agency, use the following:

  - UT Dallas SAT code: 6897
  - UT Dallas ACT code: 4243

- Submit a $50 application fee. This fee may be waived if students attend Scholars’ Day or Preview Friday events. See [utdallas.edu/enroll/events](http://utdallas.edu/enroll/events) or the inside back cover of this guide.

Applicants must have graduated from an accredited high school or satisfied equal requirements. Please see more detailed criteria for each category of prospective student.

Students who do not meet the criteria for freshman admission are encouraged to look at the Comet Connection program, described in the transfer admission section on pages 6 and 7. Our goal is to enable the admission of any student willing to work hard to attain the necessary academic standing.
Freshman Admission Criteria

All applicants with a high school graduation year of 2017 will be evaluated for admission based on the freshman admission criteria, regardless of the number of college credits earned while in high school.

Admission Under the Top 10 Percent Rule
As required by Texas law, prospective students who graduate with a distinguished level of achievement under the Foundation, Recommended or Advanced high school curriculum from an accredited Texas high school among the top 10 percent of their class are automatically admitted to the University as first-time freshmen. Applicants must have graduated from high school during one of the two school years prior to the academic year for which they seek admission as first-time freshmen. Please see the information about recommended high school curriculum online at utdallas.edu/freshmen.

Students admitted to the University will be enrolled in the degree program requested in their application, subject to academic requirements for specific degree programs and enrollment capacities. Students who cannot be enrolled in their first choice of major will be offered enrollment as outlined in their acceptance letter.

First-Time Freshman Assured Admission Criteria
Students who graduate in good standing from an accredited high school who have completed a distinguished level of achievement under the Foundation and who have academic records meeting one of the following criteria will be admitted to UT Dallas.

- An SAT score of 1270 or higher.
- An old SAT exam format (prior to March 2016) score of 1200 (combined math and critical reading) or higher.
- A composite ACT score of 26 or greater.

First-Time Freshmen with College Credit
Prospective freshmen with transferable semester credit hours completed prior to graduation will be treated for the purposes of admission as first-time freshmen. Their work will be reviewed for admission by the Undergraduate Admission Committee using the following criteria:

- SAT or ACT scores.
- High school transcript, including grade point average, class rank and college prep classes.
- All postsecondary academic coursework.

Reviewed Admission Criteria
Students with test scores or class ranks outside the assured admission range may be eligible for admission on individual review. You can assist your students in this category by encouraging them to respond to Essay Topic A on the ApplyTexas website.

Reviewed admission decisions are based on the applicant’s composite achievement profile, including:

- High school class rank and GPA.
- Strength of academic preparation, including the number of courses taken, e.g., Honors, AP, IB, dual credit.
- SAT or ACT scores.
- Record of achievements/honors/awards.
- Special accomplishments/work/service both in and out of school.
- Essay: Topic A.
- Special circumstances that put academic achievements in context.

Written recommendations (limit 3) are suggested but not required and can be very helpful to students seeking admission and will be used for scholarship consideration.

Applicants must have graduated from an accredited high school or satisfied equal requirements, and should have completed the high school unit requirements listed online at utdallas.edu/admission-requirements.
Transfer Admission Criteria

Assured Admission
All transfer applicants must be in good academic standing from the last college attended.

Applicants are eligible for assured transfer admission if they meet one of the following criteria:

1. 42+ transferable credit hours with a minimum cumulative GPA of 2.7.
   - No more than 90 attempted hours.

or

2. Comet Connection member and a completed AA/AS/AAT with a minimum cumulative GPA of 2.5.

or

3. Qualify for admission under Section 51.8035 of the Texas Education Code. Please see utdallas.edu/enroll for more information.
   - For consideration, the applicant must submit to UT Dallas, by the application deadline, information that “expressly and clearly” claims entitlement of admission under this section.

The latest information about transfer admission can be found at utdallas.edu/transfer/admission.

Transfer Credit Guidelines
UT Dallas operates on a semester system and all transfer credits will be converted to semester hours. For information on the transferability of courses, go to utdallas.edu/enroll/transfer and select Transfer Credit. Further information is available regarding program prerequisites and curricula appropriate to the various UT Dallas majors through the UT Dallas catalog at utdallas.edu/student/catalog.

Credits for College Level Examination Program (CLEP), Advanced Placement (AP), International Baccalaureate (IB) and GCE A levels will be awarded after admission and are not considered for the purpose of admission decisions. Military Veterans who enroll at UT Dallas and meet certain requirements are eligible to receive undergraduate college credit for the time they spent in the service.
The Comet Connection program is specifically for students who attend a Texas community college and would like to complete their degree at The University of Texas at Dallas. The program invites transfer students to become acquainted with the many services available to UT Dallas students. Comet Connection members build a close association with UT Dallas.

In addition to invitations to exclusive Comet Connection events, participants receive:

- **Tuition Savings** through the UT Dallas Guaranteed Tuition Plan (page 42).
- **Deferred Admission** of up to 12 months.
- **Degree Completion** by transferring UT Dallas course credit back to their community colleges toward an associate degree.
- **Early Advice** through one-on-one meetings with UT Dallas academic advisors.
- **Career Preparation** with access to health professions and pre-law advising centers.
- **Borrowing Privileges** through the TexShare program at the UT Dallas McDermod Library.
- **Student Discounts** for campus and athletic events with the Comet Connection student rate.

You can learn more about the Comet Connection by contacting our Admissions Counselors at 972-883-2270, 1-800-889-2443 or visiting the Comet Connection website at [utdallas.edu/connect](http://utdallas.edu/connect).
More than 6,000 international students representing over 100 countries call UT Dallas home. The International Center provides cultural, social and transitional programs to help international students succeed academically, personally and professionally. Programs include tax workshops, cultural festivals, English support, local trips and American culture workshops.

**International Student Application Fees, Deadlines and Requirements for Admission to Review:**

- The application fee is $50 if it is submitted before the application deadline. If the application is submitted after the application deadline, the application fee is $125.

- Applicants with international academic documents will be assessed a one-time foreign credential evaluation fee of $50.

- All supporting documents and transcripts, with the exception of courses in progress, must be postmarked by the application deadline.

- International applicants must submit proof of English proficiency by achieving a minimum score of 550 on the paper-based TOEFL, a minimum score of 80 on the Internet TOEFL, 6.5 IELTS, 67 PTE Academic, or a passing grade in level 112 of English from the ELS Language Centers.

- Students who do not enroll or defer by the census day of the original term of admission must complete a new application.

**All International Visa Types Must:**

- Register for the appropriate orientation.

- Apply for on-campus housing, if needed.

- Submit tuberculosis test results to the Student Health Center.

- Submit meningitis vaccine requirement form to the Registrar’s Office.

- Review the New International Student Checklist at utdallas.edu/icp/new-student-checklist.

**F Visa Types Must Also:**

- Submit documents to receive an I-20 from the International Student Services Office (ISSO).
Application Guidelines for Students

Your students’ applications are important to us so please share the following information with them.

• It is our policy to use only the online application found at www.applytexas.org.

• It can take four to six weeks to process a complete application file, including all required supporting documents, for an admission decision.

• When a student’s application has been verified, she or he will receive an application acknowledgment email from UT Dallas that includes a unique 10-digit UTD-ID. Students will need to use this UTD-ID to obtain a NET-ID and password online through a secure site.

• Once a NET-ID and password have been created, the student can access UT Dallas’ secure portal, Galaxy, and gain up-to-date application status information.

• Students should consistently use their full name when applying and on all documents submitted. Inconsistencies may cause delays in processing documents.

• When mailing supporting documentation, students should include full name, birth date and/or UTD-ID or application ID on all documents submitted.

• Students may track the progress of their application by going to utdallas.edu/status.

Application Fees and Deadlines for U.S. Citizens and Permanent Residents

• All fees are nonrefundable.

• The application fee is $50 if the application is submitted before the regular application deadline.

• If the application is submitted after the deadline, the application fee is $125.

• All supporting documents, including official transcripts, must be postmarked by the deadline.

• Students who do not enroll or defer by the census day of the term of their original admission must complete a new application.

UT Dallas encourages all students to complete their application as early as possible.

The last day to register for classes coincides with the last day to add classes. This information is available at utdallas.edu/student/registrar/calendar.

After Admission: A Checklist for Admitted Students

Freshmen

• Register for Freshman Orientation.
• Apply for financial aid — UT Dallas school code: 009741.
• Apply for on-campus housing, if desired.
• Send official placement test scores — Advanced Placement, International Baccalaureate, College Level Examination Program and GCE A levels, if eligible.
• All entering students must receive a vaccination or booster against bacterial meningitis. For more information, visit utdallas.edu/vaccine.
• Take ALEKS Math Placement Assessment Exam (ALEKS): UT Dallas uses the ALEKS Assessment to optimize the placement of all students in their first math course. The assessment is an open format that does not use multiple choice questions. All incoming first-time freshmen to UT Dallas are required to take the ALEKS Assessment. The ALEKS Assessment module at UT Dallas costs $40 per student. For more information about ALEKS, visit utdallas.edu/aleks.

Transfer Students

• Register for Transfer Student Orientation.
• Apply for financial aid — UT Dallas school code: 009741.
• Apply for on-campus housing, if desired.
• Review information on transfer course credit.
• Send official placement test scores — Advanced Placement, International Baccalaureate, College Level Examination Program and GCE A levels, if eligible.
• All entering students must receive a vaccination or booster against bacterial meningitis. Students must be 22 or older by first day of class to be exempt from the vaccination requirement. For more information, visit utdallas.edu/vaccine.

Final Requirements for Some Undergraduate Students

• Texas Higher Education Assessment/Texas Success Initiative (THEA/TSI): The Texas Success Initiative (TSI) requires students to be assessed in reading, writing and math skills prior to enrolling in college. Those who are not TSI exempt will be required to obtain passing scores on a TSI Assessment. Students can be exempted from TSI through a variety of means. A full list of exemptions can be found at utdallas.edu/tsie.

International Students

All International Visa Types:

• Register for the appropriate orientation at utdallas.edu/icp/iso.
• Read the International Student Guidebook, available at utdallas.edu/isso/guide.
• Apply for on-campus housing, if needed.
• Submit tuberculosis test results to the Student Health Center.
• Submit a request for airport transportation, if needed.
• Submit meningitis vaccine requirement form to the Office of the Registrar.

Requirements for F Visa Types Only:

• Submit documents to receive an I-20 from the International Student Services Office.
Academic Programs

The University of Texas at Dallas offers more than 135 academic programs across its eight schools.

School of Arts and Humanities

The School of Arts and Humanities prepares students for the global, diverse and change-intensive environment of the 21st century by providing an integrated, interdisciplinary education that fuses critical with creative thinking, the arts with the humanities, the arts and humanities with other branches of knowledge and theory with practice. The programs within the school encourage and support scholarly research and creative endeavors that seek, create and explore connections across conventional academic disciplines and forms of artistic expression.

“The literary studies program at UT Dallas challenges me, and I enjoy learning and growing alongside my peers. My classes have a strong focus on research, discussion and analysis, which makes learning interesting and fun. The classes are not too big for classroom discussion and professors encourage friendly debate by creating small groups to discuss readings for the day.”

School of Arts, Technology, and Emerging Communication

The School of Arts, Technology, and Emerging Communication merges the innovation processes of artists, scientists and engineers. The school provides a rich educational environment that prepares students to examine the ways in which developments, associated with the convergence of the arts and technology are transforming society in larger cultural, historical and philosophic perspectives. Students are not only challenged to think about how media and communication function today but are also equipped with the tools to critically understand and create the digital media of tomorrow.

“‘The ATEC program allows me to study a creative major while still having access to academic classes, which was something I couldn’t get at an art school. I’m a nerd who loves sci-fi, comics, art, computers — definitely a good fit for ATEC. UT Dallas has a great atmosphere, and the moment I set foot on campus, I knew I wanted to go to school here.’”

– Emma Mathes

School of Behavioral and Brain Sciences

Students, faculty and staff members of the School of Behavioral and Brain Sciences (BBS) are committed to understanding the intersection of mind, brain and behavior. Their work is aimed at enhancing the health, education and quality of life of children and families, and creating and implementing technology that repairs and strengthens human abilities. The school provides innovative student training and research, offering an array of programs to develop creative thinkers for exciting careers. BBS offers training from the bachelor’s degree to the PhD level — preparing students to become researchers, clinicians, social service professionals and corporate leaders.

“Brain and Behavioral Sciences has enriched me with valuable opportunities in undergraduate research with prominent and dedicated faculty. I have been mentored, taught and guided throughout my education to challenge myself and to reach my fullest potential.”

School of Economic, Political and Policy Sciences

Every new generation inherits an increasingly complex world, which prompts a need for new thinking about public policies that impact people’s daily lives. The School of Economic, Political and Policy Sciences (EPPS) offers degrees in fields involving governance, like political science, public policy, criminology, public and nonprofit management, degrees that focus on human interaction with economics and sociology, and degrees that emphasize patterns of human activities with geospatial information science. Unlike many schools of social science, EPPS emphasizes quantitative skills such as statistics, data analytics and spatial analysis that put our graduates in strong positions in competitive job markets. We emphasize interdisciplinarity, because the distinctions between academic disciplines do not always hold in the real world. EPPS prepares students for careers in government, nonprofits and the private sector enabling them to make a real difference in the world of today and tomorrow.

“Our student population is different from other universities because our students are more focused on studies; however, FUN is a priority. We pride ourselves on being a challenging academic institution. If you want to advance your education, and still be involved with multiple organizations, look no further than UT Dallas.”

– Brooke Knudtson

**EXECUTIVE EDUCATION**

| Justice Administration and Leadership  | MS** |

* A Dual Masters Degree in International Political Economy is also available and features one year at UT Dallas and one year at the University of Marburg in Germany.
** Executive Education programs are generally aimed at professionals pursuing advanced degrees in their area of interest or expertise. Some programs include weekend formats and cohort groups. Tuition costs may vary from non-executive programs.
“The ride that is founding, running and owning Jump Space Apps has been a crazy one. From working with the state to set up the LLC, paying employees and taxes, managing expenses and still meeting deadlines, it is a lot of work, but it has been the most enjoyable work I have ever done. Seeing someone using one of my apps is an amazing experience. Knowing that all my hard work is turning into something that people use and enjoy makes it all worthwhile.”

– Justin Ehlert  
Computer Science Major  
Creator of UTD Eats app, co-founder of Jump Space Apps and iOS developer at Bottle Rocket Studios
School of Interdisciplinary Studies

The Interdisciplinary Studies programs provide students with a broader learning experience and a wider perspective. Because of the individualized focus and flexibility, the programs are appropriate for both students preparing to enter the workplace and those planning to continue their studies. Most of all, they serve those students who seek a thorough grounding in the arts and sciences from an interdisciplinary perspective.

“I feel fortunate to be a part of UT Dallas’s healthcare studies program, which incorporates nearly every skill needed to be successful in today’s demanding and competitive healthcare industry. My holistic education not only gives me the credentials to pursue a graduate education such as dental or medical school, but also tackle a cause more important than myself: The world.”

Naveen Jindal School of Management

The Naveen Jindal School of Management at The University of Texas at Dallas provides students at the undergraduate, graduate and PhD levels an outstanding educational experience in an environment that has gained national and international recognition. A Jindal School education will increase and sharpen students’ skills, prepare them with strong career prospects and help them become business leaders. The Jindal School offers traditional as well as evolving-market programs that focus on challenges in our technology-driven, global society and cover a wide breadth of topics keyed to industry and research.

The Jindal School strives to incorporate industry experiences and expertise into its programs. In addition to emphasizing internships, which are required in undergraduate study, the school involves students in real corporate assignments, and it invites executives and experts to participate in classroom projects. International study and internship opportunities abound, including long-term exchange programs and faculty-led study trips. The school’s Career Management Center’s services range from career coaching, résumé writing, interviewing and social media workshops to internship and job-search assistance. At the Jindal School, students are equipped to make business their future.

“The University of Texas at Dallas has a beautiful campus. All the labs and learning resources provide a lot of academic support. Professionally, I have been able to enhance my development by becoming a founding member of NOVA, the Jindal School’s student ambassador program. I also am a student worker in the JSOM recruitment office, where I often travel to local high schools to introduce prospective students to UTD. UT Dallas is the kind of place where a student can make his or her mark; you feel like you can have a big impact.”

– Marcus Harpole

* The MS in Accounting, MS in Information Technology and Management, and MS in Marketing programs are also offered online.

** This degree program offers concentrations. Please visit the program pages on the Jindal School website, jindal.utdallas.edu, for more information.

*** Master of Business Administration programs include Full-Time MBA, Professional MBA Flex, Professional MBA Evening Cohort, Joint MS/MBA and Professional MBA Online.

**** Systems Engineering and Management is a joint program with the Erik Jonsson School of Engineering and Computer Science.

***** Executive Education programs generally are aimed at executive professionals with 10+ years of experience pursuing advanced degrees in their area of interest or expertise. Some programs include weekend formats and cohort groups. Tuition costs may vary from non-executive programs.
School of Natural Sciences and Mathematics

The School of Natural Sciences and Mathematics offers 29 undergraduate and graduate programs within its six departments: biological sciences, chemistry, geosciences, mathematics, physics and a graduate program in science/mathematics education. Each program is research-intensive, with close cooperation from industry. Faculty members compete at the national level for sponsored research. Graduates go on to pursue careers at colleges and universities as well as in industrial, medical, public health, environmental and governmental organizations.

The school also offers the lauded UTeach Dallas program that enables students to get teaching certification in mathematics or science without requiring additional time to earn their degree. For more information, see the UTeach Dallas section (page 23).

“The cool thing about being in pre-health is that all my peers have so much ambition. No matter where I look, I see people who want to change the world. UT Dallas has given me the avenue to be somebody, to do something important.”

– Eric Chiang Hsieh

Teacher Certification Preparation Programs at UT Dallas

Teacher Development Center
972-883-2730  utdallas.edu/teach

The UT Dallas Teacher Development Center offers both undergraduate and post-baccalaureate students a path to achieving teacher certification in Texas. Undergraduate students major in their chosen field of study as they simultaneously complete a sequence of professional education courses usually during their junior and senior years. Undergraduate students can complete their undergraduate degree and teacher certification within 120-124 hours. Undergraduates should meet with an academic adviser to develop a degree plan no later than the end of the second regular semester where they earn 45 or more hours, indicating to their adviser interest in teacher certification. Students can then make an appointment for certification plan advising with the Teacher Development Center. Post-baccalaureate students, those students who already earned bachelor’s or graduate degrees, complete a sequence of professional education courses along with any unfulfilled content field courses required by the teaching certification they seek. The culminating experience in professional education preparation is a semester of supervised student teaching.

Numerous teacher certification plans are offered through the Teacher Development Center.

UTeach Dallas
Mathematics, Science and Computer Science Certification for Middle and High School Teaching
972-883-6485  utdallas.edu/uteach

The UTeach Dallas program offers both undergraduate and post-baccalaureate students a path to teaching certification for secondary math and science. Undergraduates can earn a degree in their chosen science, computer science or mathematics-related field while concurrently completing a sequence of professional education courses for a secondary teacher’s certification. Post-baccalaureate students may complete certification only or combine UTeach Dallas with an advanced degree such as the Master of Arts in Teaching in Mathematics Education or Science Education. Encouraged to start in their freshman year, most students can complete both undergraduate degree and teacher certification within 120-124 hours over four years. Students in UTeach Dallas teach actual math or science lessons in local school districts beginning with the first semester of the program. A faster path is available for transfer students students who begin certification later in their degree plans. These teaching experiences continue throughout the program progressing from upper elementary, middle school and on to high school before apprentice teaching. The tuition for the first two courses is reimbursed to students. Financial aid in the form of paid internships and scholarships is also available to UTeach Dallas students. UTeach Dallas prepares teachers for several levels of certification in the STEM disciplines:

Master of Arts in Teaching

Master of Arts in Teaching programs are available in the following:

- Master of Arts in Teaching – Mathematics Education utdallas.edu/scimathed/graduates
  Email: scimathed@utdallas.edu
- Master of Arts in Teaching – Science Education utdallas.edu/scimathed/graduates
  Email: scimathed@utdallas.edu
UT Dallas strongly encourages students to participate in research and offers a wealth of opportunities for undergraduates in many disciplines. From unlocking the secrets of cancer, to developing new nanotechnologies, to understanding the cosmos, UT Dallas provides myriad possibilities for scientific discovery and innovation.

By pairing exceptional faculty with promising students, UT Dallas helps strengthen students’ basic understanding of scientific principles and provides hands-on experience with the scientific process. Undergraduates learn how to solve unique problems and face intellectual challenges while developing skills in a supervised University research environment.

Opportunities include:

**Undergraduate Research Match Day** – Match Day, an annual event, is open to all students and is designed to facilitate the process of pairing motivated undergraduates with faculty who have research projects. Students who participate will gain valuable research experience that contributes to future success professionally, or in graduate school. Faculty who engage undergraduates in research enhance grant applications by demonstrating mentorship alongside receiving quality researchers.

**Undergraduate Research Scholar Awards** – Students apply for funding to conduct research during the academic year with faculty mentors in a wide range of fields. Recent awarded projects have involved flexible electronics, autism, facial recognition, online communities, homelessness, molecular biology and nanotechnology.

**Exhibition of Excellence in Undergraduate Research** – Each year, the Office of Undergraduate Education and Office of Research collaborate to host the Exhibition of Excellence in Undergraduate Research (EEUR). This weeklong event provides undergraduates an opportunity to learn more about research opportunities, to receive recognition for research related accomplishments, and to compete for valuable research awards. A panel discussion, research resume workshop, Match Day, and the Undergraduate Research Poster Contest are just a few of the events aspiring researchers may attend.

**Anson L. Clark Summer Research Program** – This intensive summer research experience for first-time-in-college freshmen includes laboratory work and theory development. Topics have ranged from tinnitus studies to environmental monitoring to improving socioeconomic conditions in Colombia.

**The Exley** – UT Dallas’ undergraduate research journal contains cutting-edge analytical research and innovative creative works provided by students from every discipline.

**Student Success Center**

972-883-6707   utdallas.edu/studentsuccess

In the McDermott Library, the Student Success Center (SSC) offers academic support services for all majors aimed at improving and ensuring academic success for all UT Dallas students. The center includes Peer-Led Team Learning for science and math. Supplemental Instruction is a peer-led program offered in historically difficult courses. Individualized peer tutoring and one-on-one assistance with a success coach is offered. The Math Lab provides SSC math and statistics help for undergraduate math courses. The SSC Testing Center supports online exams for all schools. The SSC Writing Center provides assistance at any stage of the writing process for nearly any writing assignment and the Communications Lab provides oral presentation assistance. The CometCents Financial Success Program provides free education and information to currently enrolled students on personal financial topics.
Pre-Professional Programs

The Pre-Law Advising and Resource Center (PLARC) at UT Dallas assists students in making informed decisions about preparation for law school and legal careers. Our staff, which includes a former law school admissions officer, offers a variety of individualized services, as well as larger-scale workshops and visits from law school admissions deans or our numerous lawyer alumni, all designed to help UTD students understand how to be successful law school applicants, students and eventually, legal practitioners.

While pre-law students do not have to work with PLARC to apply to law school, students who do enjoy a 91% acceptance rate to law school, significantly higher than the national average. Our students are regularly accepted to the top law school programs in the state and the country.

Our nationally renowned Mediation, Mock Trial and Moot Court teams are able to practice in UTD’s own courtroom classroom, and the Innocence Project seminar gives students hands-on experience investigating the case files of the wrongfully convicted.

972-883-6712  utdallas.edu/pre-law

The Health Professions Advising Center (HPAC) provides pre-health advising to students who seek careers in medicine, dentistry, pharmacy, podiatry, veterinary medicine, optometry and other health professions requiring study beyond the undergraduate level.

HPAC sponsors seminars throughout the year and provides a resource room/lounge where students study individually and in groups, read scientific and professional journals, use computers, and relax. HPAC works extensively with students on their applications and has a committee letter process. To register for the committee letter process, students attend a General Application Orientation (GAO) the fall semester prior to application. Pre-med and pre-dental students are accepted to medical and dental schools at a rate generally 15 to 20 points above the national average. This rate increases dramatically for students who participate in the committee process.

Distinguished Scholars Programs

The Eugene McDermott Scholars Program
utdallas.edu/mcdermott

Faculty in the Honors College work closely with the Eugene McDermott Scholars Program, whose scholars also participate in honors activities.

The Eugene McDermott Scholars Program at UT Dallas is more than a merit scholarship; it is a program of exceptional experiences and unmatched opportunities. Focused on excellence in scholarship, leadership, service, and character, Scholars blend classroom and pre-professional pursuits, community and campus involvement, and travel and cultural activities to create an individualized college experience. The program welcomes all majors and careers from all states and countries. Finalists are invited to interview each March, with approximately 25 Scholars selected.

Minimum Qualifications:

- Academically distinguished: score 1490 or higher on the SAT.
- Old SAT exam format (prior to March 2016) score of 1450 (combined math and critical reading) or higher.
- 33 or higher on the ACT.
- First-time college freshman.

Additional Considerations:

- In top 5 percent of their class.
- Dedicated to service and leadership.
- Demonstrated exemplary character.
- Broad and eclectic interests.
- Interacts easily with adults as well as peers.

Application Materials:

- Completed online McDermott Scholars Program application including essays (utdallas.edu/mcdermott).
- Three recommendations — one of the three must be a high school counselor.
- High school transcript submitted online.
- Completed UT Dallas application.

Amount of Award

Valued at $150,000 for in-state and $240,000 for out-of-state students, the McDermott award provides tuition and fees, living stipends, book allowances, study abroad and professional development funds, cultural event tickets, and cohort travel.

The Terry Scholars Program
honors.utdallas.edu/terry/scholars

The Terry Scholars Program is a four-year cohort experience that provides academic, cultural, mentoring and other opportunities to students awarded prestigious Terry Foundation scholarships.

Qualifications:

- Graduating senior of a Texas high school or home school.
- Acceptance to The University of Texas at Dallas (fall only).
- Demonstrate a strong record of academic achievement.
- Exhibit a notable record of leadership and volunteerism.
- Free Application for Federal Student Aid (FAFSA) review. Eligibility for need-based aid is not a requirement to receive the scholarship.
- Net annual family income of $85,000 and below (subject to a case-by-case review).
- U.S. citizen or permanent resident.

Application Materials:

- Sealed official copy of high school transcript with grades earned in the senior year. If senior grades are unavailable, a report card will suffice.
- Two letters of recommendation (one from a high school teacher).

Other Important Information:

- The total four-year award is more than $110,000.
- Apply for on-campus housing (all Terry Scholars are required to live on campus for the first year).

honors.utdallas.edu/terry
The National Merit Scholars Program at The University of Texas at Dallas combines a specially designed set of intellectual and cultural opportunities with generous financial support. Located in the Honors College, the program works closely with each of the eight schools at UT Dallas to promote academic achievement and to celebrate scholarly success.

UT Dallas’ National Merit Scholars enjoy academic support and exceptional opportunities. Scholars are eligible for inclusion in the Collegium V Honors Program, which provides access to small class sizes and some of the University’s top faculty members. Scholars have the opportunity to participate in the Honors Roundtable Series, a set of discussions across the disciplines led by UT Dallas faculty members or guest lecturers.

Beyond the classroom, National Merit Scholars enjoy attending a variety of entertainment activities such as the opera, the symphony and multiple theaters and museums. Scholars also receive academic and career mentoring and work closely with the Office of Distinguished Scholarships to support applications for competitive national awards such as Fulbright and Goldwater Scholarships.

UT Dallas’ commitment to recruiting the top academic applicants in the country through the National Merit Scholars Program includes a highly competitive award that is among the most generous in the nation.

* NMSC Scholarships amount will vary depending upon the sponsor of the individual’s award.

** All award amounts are estimates of coverage based on maximum eligibility and usage, and do not constitute an official scholarship offer. Individual scholarship offers will be mailed directly to awardees after confirmation that UT Dallas has been selected as the applicant’s first choice school.
Academic Honors Programs

Collegium V Honors Program
honors.utdallas.edu/cv

The University of Texas at Dallas’ commitment to excellence in teaching and research extends to every aspect of academic life in the University. The Collegium V Honors Program (col·le·gi·um five) provides a four-year honors experience that encourages intellectually creative, inquisitive and highly motivated students to extend their educational experience beyond the scope of the traditional undergraduate curriculum. Small classes, innovative instruction, world class faculty, bright and inquisitive colleagues, and an array of extracurricular events offer Collegium V members opportunities for professional and personal growth at the University.

The Collegium V Honors Program uses three pillars to support the program philosophy in a student’s academic life.

Collegium V:

• Encourages student participation through high quality instruction and small class size.
• Facilitates mentoring relationships between faculty and students, providing career counseling and excellent letters of reference.
• Lounge and classroom space celebrates academic inquiry and intellectual discipline through planned and spontaneous collaboration.

Through these program components, Collegium V students engage in frequent intellectual discussions with professors, mentors and peers that complement the broad range of academic and student life experiences that characterize a UT Dallas undergraduate education.

Eligibility Requirements:

• 1410 SAT – or – 31 ACT
• Old SAT exam format (prior to March 2016) score of 1350 (combined math and critical reading).
• Top 10% of class – or – 3.6 HS GPA

Application Timeline:

Students must be accepted to UT Dallas before their applications will be considered. Review of applications will begin in November and continue until the class is full. To request an application, please contact the program:

E-mail: collegiumv@utdallas.edu
Phone: 972.883.4297

Davidson Management Honors Program
jindal.utdallas.edu/undergraduate-programs/honors-program/

The Davidson Management Honors Program is committed to graduating well-rounded citizens and community leaders who actively pursue personal and intellectual growth in the Naveen Jindal School of Management. Students benefit from taking smaller classes with highly-regarded faculty members, as well as access to exclusive professional development and community service events, scholarship opportunities and domestic and international study trips.

Application for Entering Freshmen Students:

• Must submit an online application, essay and resume.
• Must be in the top 20 percent of their high school graduating class.
• Minimum 1310 on SAT or comparable ACT score.
• Old SAT exam format (prior to March 2016) score of 1250 (combined math and critical reading).
• Phone interview (by invitation only).
• Qualified students can also apply to additional honors programs such as Collegium V, Terry Scholars, National Merit Scholars Program and McDermott Scholars.

Freshman Admission Deadlines:

• Early Action Notifications: By Feb. 6, 2017 (non-binding admission).
• Applications are still accepted after the Dec. 5 early action deadline and will be reviewed on a rolling basis until our class is full. Students are encouraged to apply as early as possible.
Math Cohort Program
utdallas.edu/math/cohort

The UT Dallas Math Cohort Program brings together a small group of serious mathematics majors. These students take courses together under the supervision and guidance of a principal professor.

Students are admitted to the cohort via interview (written and/or oral) conducted by the principal professor. Students in the Math Cohort experience receive a math education that explores the depth and breadth of the disciplines with a formatation based on formed proofs and rigorous methodology.

Computing Scholars Honors Program
utdallas.edu/~ivor/ComputingScholars

The Computing Scholars Honors Program is an intense bachelor’s degree program in computer science. This program was created for gifted students who wish to pursue a demanding course of study enriched with research experiences.

Graduating Scholars will be prepared for multiple career opportunities including a research position at a university or a leadership role in industry.

Admission to the program is primarily by invitation and is limited to no more than 30 students per year. The selection committee reviews nominations from parents, teachers and others familiar with an applicant’s academic standing.

Programs of Excellence

Office of Distinguished Scholarships
honors.utdallas.edu/distinguished-scholarships

UT Dallas attracts some of the nation’s brightest and most creative minds. The Office of Distinguished Scholarships supports these individuals in their applications for nationally and internationally competitive scholarships and fellowships that allow them to continue their studies and travel around the world.

National public policy and generous philanthropic giving have provided many scholarship opportunities for undergraduate students. Generally, a distinguished national scholarship has a national or international applicant pool of students in the top fifth of their academic class and provides an award or recognition to less than a third of applicants.

Phi Kappa Phi
honors.utdallas.edu/phikappaphi

Phi Kappa Phi is the nation’s oldest, largest and most selective collegiate honor society for all academic disciplines. Members of Phi Kappa Phi can apply for scholarship and fellowship funding from the local UT Dallas chapter and from the national organization.

Phi Kappa Phi membership is earned. Admission is invitation-only and requires nomination approval by the local chapter. Requirements include:

- Juniors must have completed at least 72 credit hours, with at least 24 semester hours at their current institution, and rank in the top 7.5 percent of their class.
- Seniors must have completed at least 24 semester hours at their current institution and rank in the top 10 percent of their class.
- Graduate students must have completed at least 18 graduate hours and rank in the top 10 percent of their class.
Green Fellows Program
honors.utdallas.edu/green-fellowship

The Green Fellows program, offered jointly by UT Dallas and UT Southwestern Graduate School of Biomedical Sciences, provides a semester-long, fully paid undergraduate research fellowship for UT Dallas students. Students pursue individual research projects under the direction of the graduate school faculty at UT Southwestern. A select number of applicants are admitted by faculty mentors and assigned to a research project according to each fellow's previous training and research interests.

Green Fellows gain experience in modern research techniques and plan and execute an experimental strategy to answer a scientific question. The program introduces students to the kinds of projects encountered during postgraduate research training and fosters an understanding of the planning, discipline and teamwork involved in the pursuit of answers to current questions in the biological sciences.

At the end of the semester, fellows present their research in a forum. In addition to intensive research, Green Fellows attend lectures and seminars on the UT Southwestern campus.

Archer Program
honors.utdallas.edu/archer

The Archer Center educates the next generation of leaders for service in local, state, federal and international organizations.

The Bill Archer Fellowship Program for Undergraduates was established by The University of Texas System in conjunction with former U.S. Rep. Bill Archer as a way to bring highly motivated and accomplished students to Washington, D.C. Students take nine hours of classes focusing on public policy, economics and governance. Students also earn six hours of internship credit at places such as the United Nations, U.S. Department of State, the White House, the Supreme Court, the Capitol, or federal agencies and non-profit organizations.

Texas Legislative Internship Program
honors.utdallas.edu/texas-legislative-internship-program

The Texas Legislative Internship Program (TLIP) is an undergraduate internship program in the Texas state capitol during the spring semester when the legislature is in session. This program provides academic, professional and practical support for students while they intern in a state legislative or senatorial office for a full semester.

The program is open to students from all majors who have an interest in the legislative process and Texas politics. It is an intensive experience and — to allow for full-time participation — the program provides UT Dallas students with the following benefits:

- Twelve hours of credit – six hours of class credit and six hours of internship credit allowing students to maintain full-time status at UT Dallas.
- Housing scholarship to subsidize housing costs in Austin.
- Assistance in finding an internship.
Financing Your Education

The cost of college varies from student to student even at the same university, and the posted tuition rate isn’t necessarily the ultimate cost to the student and his or her family. Factors such as academic programs, academic progress and student lifestyles affect the bottom line. Based on current experience, these are the approximate costs a student might expect for one full year without any financial aid, scholarship or other assistance. For the most current tuition estimates, refer to the financial aid website at financial-aid.utdallas.edu.

<table>
<thead>
<tr>

</tr>
<tr>
<td>Total</td>
</tr>
</tbody>
</table>

Based on 30 hours (15 hours per semester) beginning fall 2016. Room & Board is based on on-campus housing. Use only as a guideline for estimating charges. Estimates are subject to change. Travel and miscellaneous costs are estimated at $3,520 for financial aid purposes. Oklahoma residents pursuing their first undergraduate degree pay the Texas resident tuition rate plus $30 per credit hour. Students must show proof that they are residents of Oklahoma to receive this waiver.

Academic Excellence Scholarships
oue.utdallas.edu/aes

UT Dallas offers several hundred Academic Excellence Scholarships (AES) each year to incoming first-time-in-college freshman students. The application for admission to the University serves as the AES application. Prospective students who complete their application for admission by the priority deadline of January 1 are reviewed automatically for AES awards. The materials included in completed applications provide the information necessary to determine scholarship eligibility, in particular SAT/ACT scores, class rank (if available), high-school grades and curricular information about types and levels of classes taken.

Decisions on admission to UT Dallas and AES awards are made continuously upon receipt of completed application materials. Students who are awarded an AES will be informed of their award soon after receiving notification of admission to UT Dallas. Funds available for each year’s new scholarship awards are limited, and students admitted after March 1 will be considered for scholarship awards contingent upon availability of funding. Recipients of an Academic Excellence Scholarship Award may supplement their awards with need-based state or federal aid and/or third-party scholarships.

AES Program Eligibility

Award Factors:
• SAT or ACT scores.
• Class rank.
• Grades in all course work.
• Success in Advanced Placement, IB or dual credit courses.
• Extracurricular and other leadership activities.
• Special recognitions and awards.

No specific achievement in any category of the AES award factors will guarantee a scholarship. The AES Program will examine each student’s record in its entirety; additional considerations are based on the rigor of courses taken in high school.

Students also may be eligible to receive need-based financial aid. Contact the UT Dallas Financial Aid Office at 972-883-2941 to determine eligibility. For more information, visit the financial aid website at financial-aid.utdallas.edu.
UT Dallas Scholarship Opportunities

Academic Excellence Scholarships

Academic Achievement Scholarship
• $3,000 per semester applied toward UT Dallas tuition and mandatory fees.

Academic Distinction Scholarship
• Complete coverage of UT Dallas tuition and mandatory fees.
• $1,000 per semester cash stipend to defray the costs of books, supplies and other expenses.

Academic Honors Scholarship
• Complete coverage of UT Dallas tuition and mandatory fees.
• $3,000 per semester cash stipend to defray the costs of books, supplies and other expenses.

Valedictorian Scholarship
High school valedictorians who receive The State of Texas Valedictorian Scholarship and are admitted to UT Dallas are eligible for the AES Valedictorian Scholarship. The State of Texas Valedictorian Scholarship will be applied to the first two regular semesters following high school graduation.

• The AES Valedictorian Scholarship provides complete coverage of UT Dallas tuition and mandatory fees for the six subsequent and continuous semesters (three academic years) after The State of Texas Valedictorian Scholarship has been applied.

• To receive this scholarship, students must provide the AES Program office (located in FO 2.710) a copy of the original valedictorian certificate that is issued to them by the Texas Education Agency on behalf of their accredited Texas high school by August 1 (prior to their first fall semester). Students must also provide the original valedictorian certificate to the Office of Financial Aid for processing.

• To receive this scholarship, students also must meet the AES academic requirements during their first year at UT Dallas. Students who have submitted their certificate to the AES Program and met the AES academic requirements will be contacted about receiving the AES Valedictorian Scholarship at the conclusion of their first academic year.

• Students who qualify for an AES award of higher value than the Valedictorian Scholarship may elect to receive the scholarship of higher value. The State of Texas Valedictorian Scholarship will still be applied toward tuition and fees for the first two semesters.

Maintaining AES
AES recipients agree to meet the following academic requirements:

• Earn a 3.0 GPA or better each semester and a cumulative 3.0 GPA or better at the conclusion of each academic year.

• Complete a minimum of 15 UT Dallas credit hours per semester and complete a total of 30 UT Dallas credit hours each academic year.
Opportunities for AES Recipients

Clark Summer Research Program
First-time-in-college freshmen who are awarded an AES or National Merit Scholarship may apply for a position in the Clark Summer Research Program. The program provides research and lab experiences rarely offered at the undergraduate level. Students engage in serious research activities that give them a realistic view of the work conducted in their academic disciplines. Each student is assigned a faculty research mentor and conducts hands-on research with some of the University’s nationally recognized faculty and talented undergraduate, graduate and post-doctoral students.

Summer Usage
Students who have met the AES academic requirements (page 38) at the conclusion of the spring semester may utilize their AES during the summer; students must enroll in a minimum of nine UT Dallas hours. The summer semester will count as one semester toward overall scholarship eligibility. Approval is required before enrolling in classes.

Graduate Usage
AES recipients who are degree-seeking and in a fast-track program at UT Dallas may be allowed to apply their scholarship toward their graduate-level work. Enrollment must be continuous and students must receive approval from the AES program.

Transfer Scholarships
The Comet Transfer Scholarship Program is available to qualified, first-time undergraduate transfer students who are Texas residents at the time of admission and have earned 30-90 transferable semester credit hours, of which a minimum of six credit hours must have been completed after high school graduation (excluding the summer immediately after high school graduation). Students who have previously earned a four-year, U.S. bachelor’s degree or its equivalent are not eligible to receive this award.

### Phi Theta Kappa Transfer Scholarship

The Phi Theta Kappa Scholarship (PTK) is available to qualified first-time undergraduate transfer students who are current members of PTK and who are Texas residents at the time of admission and have earned 30-90 transferable semester credit hours, of which a minimum of six credit hours must have been completed after high school graduation (excluding the summer immediately after high school graduation). Students who have previously earned a four-year, U.S. bachelor’s degree or its equivalent are not eligible to receive this award.

Financial Aid at UT Dallas

The Financial Aid Office helps remove financial barriers and assists students with the cost of attendance at The University of Texas at Dallas. The office strives to provide students with the federal, state and institutional financial assistance they are eligible to receive to pursue their educational objectives.

The application period for federal financial aid begins October 1 of each year for the following academic year (fall, spring and summer).

The Free Application for Federal Student Aid (FAFSA) is available online at fafsa.gov.

Guaranteed Tuition Plan

Lock in Tuition for Four Years — Guaranteed!

Since 2007, all students have been eligible to lock in their tuition rate for four years under UT Dallas’ Guaranteed Tuition Plan. The plan is UT Dallas’ effort to help students and their families budget for the cost of a college education, while allowing the University to maintain the quality of its academic programs. It provides an incentive for students to earn a degree in a timely manner, since additional courses taken beyond 15 credit hours each semester will, in essence, be free to in-state students. Non-resident students (those who are from out of state) pay a differential rate that is applied by credit hour.

Under the terms of the plan, undergraduate and graduate students enrolling at UT Dallas for the first time will be charged for tuition and mandatory fees fixed for 12 consecutive semesters including summers. Eligibility requires continuous fall-spring enrollment. Charges may vary based on determination of non-resident status.

The Tuition Promise

The Tuition Promise applies to new, full-time freshman students who are residents of Texas. To be eligible, students must be admitted to the University and have turned in all financial aid forms with supporting documents by March 15.

To benefit from the plan, students must be eligible to receive federal Pell grants and the annual family income of their families may not exceed $25,000. Students must be full-time, taking 12 semester credit hours of classes or more at UT Dallas. In addition, students must meet UT Dallas entrance requirements.

To remain eligible for the program, students must complete 30 credit hours each year with a minimum 2.5 term and cumulative grade point average, and must continue to meet income and grant eligibility requirements. Students must reapply for the program each year by the deadline and meet eligibility requirements. The Tuition Promise will be effective for four years or until a student graduates, whichever comes first, and will pay only for classes taken in the fall and spring semesters.

To apply, students must submit a Free Application for Federal Student Aid (FAFSA) and related documents by March 15, the University’s priority deadline for financial aid. They must be fully admitted to the University by that date as well.

For additional information about the Guaranteed Tuition Plan or the Tuition Promise, please call the UT Dallas Financial Aid Office at 972-883-2941.
UT Dallas’ intercollegiate athletic program is one of the most successful in the NCAA Division III American Southwest Conference (ASC). UT Dallas teams perennially challenge for conference championships in almost every sport.

Comet athletics by the numbers:
- 15 conference titles since 2002.
- 19 NCAA Division III National Championship Tournament bids since 2002.
- 300+ student-athletes.

The Comets have been their most successful in:

- **Soccer**: The men’s and women’s soccer teams have posted winning records almost every year since 1998, and both are regular qualifiers for the ASC Championship Tournament. The UT Dallas men’s team has won the ASC championship three times since 2004, including the 2015 season. The Comet men made back-to-back appearances in the NCAA Division III national tournament in 2014 and 2015, hosting the first two rounds in 2014. The women’s team has advanced to the tournament title game numerous times, winning a title in 2002 and sharing the championship in 2004.

- **Volleyball**: In just 12 seasons since the program began in 2004, the UT Dallas volleyball team has qualified for the conference postseason every year, won seven consecutive division titles and back-to-back ASC championships in 2008 and 2009. The Comets picked up their third ASC title in 2015, advancing to the NCAA Division III national tournament for the fourth time in program history.

- **Baseball**: UT Dallas’ baseball program has had a winning record every year since its inception in 2002, has qualified for the ASC Championship Tournament almost every season and advanced to the NCAA Division III regional playoffs in 2007.

- **Basketball**: The UT Dallas women’s basketball team earned a spot in the NCAA Division III Sweet 16 for the first time in history in 2015. That same year, the women’s team claimed a second ASC Championship after its first win in 2013. The men’s basketball team, which has won three ASC championships, has been to the Sweet 16 round of the NCAA Division III national tournament in 2009, 2010 and 2014, and just missed advancing to the Final Four in 2009.

- **Tennis**: The UT Dallas men’s and women’s tennis teams each collected ASC championships in 2013 and both squads advanced to the NCAA Division III national tournament.
Campus Life

Student Affairs
utdallas.edu/studentaffairs
Student Affairs provides a wide array of programs and services that not only promote students’ academic achievement but also offer a broad range of opportunities for personal growth and development. Specifically, it provides oversight for Residential Life and Living Learning Communities; Athletics and Recreational Sports; the Health, Counseling and Wellness Centers; the Center for Students in Recovery; the International and Career Centers; the Dean of Students; New Student Programs, the Veteran Services Center; and student activities and organizations.

Freshman Year Experience
utdallas.edu/fye
The Freshman Year Experience (FYE) is a combination of programs and services designed specifically for incoming freshmen to make their transition to college easier and their first year more successful. FYE is a collaborative effort provided through Student Affairs and the Office of Undergraduate Education.

By participating in FYE programs, a first-year student may:
- Gain a better sense of campus community and pride in the University.
- Achieve academic and social success by developing good habits through connections with faculty, staff and students.
- Make new friends more easily.
- Develop strong leadership skills.
- Experience a greater connection to the campus.

Freshman Orientation
utdallas.edu/fye/orientation
This two-day introduction to campus helps incoming freshmen get off to a good start at the University. During orientation, students have the opportunity to:
- Meet other students and make new friends.
- Meet with academic advisors and discuss courses and majors.
- Complete course selections and register for classes.
- Learn about the University’s services and resources.
- Get acquainted with the UT Dallas campus.

New student orientations for freshmen entering in the fall are held in June, July and August. New student orientation is scheduled in January for the spring semester and in May for the summer semester. For some orientation sessions, students may choose to stay overnight in a residence hall.

Parents and other family members are encouraged to attend orientation with their student. Separate programs designed specifically for parents provide needed information to help their student throughout the year. Parents and families also have the opportunity to meet faculty, staff and other parents in a fun and relaxing atmosphere.

Sophomore Year Experience
utdallas.edu/soye
The Sophomore Year Experience (SOYE) is an initiative that provides various programs and activities designed especially to help returning students throughout their sophomore year at UT Dallas. Designed for the challenges and opportunities that sophomores face, SOYE assists with important personal and academic decisions regarding the final years at UT Dallas and beyond.

Student Activities
Alternative Spring Break
utdallas.edu/springbreak
The Office of Student Volunteerism hosts the University’s annual Alternative Spring Break initiative, a program in which students travel to various sites during the week of spring break to volunteer with nonprofit organizations. Previous trips have included service projects benefiting the elderly, at-risk youth, homeless populations and special-needs children, as well as assisting with disaster relief, parks restoration and environmental cleanup.
Externship/Job Shadowing
utdallas.edu/career/externships
During spring break, students who participate in the "Explore the Wow!" externship/job shadowing program receive a firsthand look at a career of their choice, make valuable networking contacts and have the opportunity to see how classroom learning can be applied to real-world situations.

Education Abroad
utdallas.edu/ea
Students who study abroad often develop career skills such as critical thinking, problem solving and adaptability, which make them more marketable to employers. UT Dallas offers a number of ways students can gain education abroad, including faculty-led programs, study abroad programs, internships, independent studies and exchange programs.

Comet Camp
utdallas.edu/cometcamp
A three-day, two-night adventure held away from campus, Comet Camp is a great way for new students to make friends, learn about UT Dallas traditions and attend sessions about surviving college. Comet Camp is usually held in July and August, prior to the fall semester.

Success Camp
utdallas.edu/successcamp
UT Dallas Success Camp teaches students the skills to succeed in college classes. They will have the opportunity to meet professors and learn secrets of success from upperclassmen. Success Camp includes hands-on experiences designed to help students succeed academically. Success Camp is held in August prior to the start of the fall semester.

University Convocation
utdallas.edu/convocation
University Convocation, a special welcome ceremony for incoming students, marks the beginning of a student’s academic career at UT Dallas. The University president and other senior administrators welcome students to the University. A keynote speaker also addresses students.

Leadership
utdallas.edu/leadership
The leadership program focuses on preparing students for a successful college career by offering them the opportunity to enhance their leadership skills through workshops and involvement at UT Dallas and beyond.

F.E.S.T. (Freshmen Engaged In Service Together)
utdallas.edu/volunteer
F.E.S.T. is designed just for freshmen. It’s an opportunity for students to learn the importance of service to others, connect with other freshmen and have an opportunity to work in the surrounding communities.

Living Learning Communities (LLC)
utdallas.edu/livinglearning
Freshmen who live on campus can choose to be part of a living learning community. These communities group students who share the same academic interests, and the students live together and have opportunities to take part in events and service related to their community theme.

Road Warriors
utdallas.edu/roadwarriors
Road Warriors is a social program that helps commuters find their place at UT Dallas, keeps them informed about campus events and enables them to network with other students. Road Warrior activities ensure that students who live off campus have opportunities to take part in the social events that bring the campus together.

University 1010 (Freshman Seminar)
utdallas.edu/fye
All freshmen must take University 1010 during their first semester at the University. Students attend several large-scale presentations from leading faculty members on a variety of topics, attend small section discussions and hear about the ideas and practices necessary to get the most out of a university education.

Freshman Ignite
utdallas.edu/fye/events
Sponsored by Student Transition Programs and residential life, this event celebrates the completion of a student’s first year at UT Dallas and officially welcomes freshmen to their sophomore year.
International Student Information
utdallas.edu/ic

International Student Services provides immigration information for UT Dallas students who are non-U.S. citizens and permanent residents, and provides particular services for students who wish to obtain and maintain an F-1 or J-1 immigration status.

Services include: issuance of F-1 and J-1 immigration documents (I-20s and DS-2019s); guidance for international students to understand and comply with immigration-related rules and regulations; work authorizations; invitation letters for visiting family members; travel authorizations; and individual advising.

For students wishing to transfer their immigration status to an F-1 or J-1 student status from another non-immigrant status, International Student Services provides individual advising sessions.

International Student Orientation

Freshman international students (first-time undergraduate students) in F or J status should attend Freshman Orientation and the international student session offered during Freshman Orientation. Attending these sessions will meet the International Student Orientation requirement.

Non-freshman international students in F or J status must attend International Student Orientation. More information on orientation requirements can be found at utdallas.edu/icp/iso.

Class Registration

International students may register for classes only after they have:

- Met the International Student Orientation requirement.
- Turned in completed tuberculosis testing documents to the Student Health Center.
- Completed academic advising, if required for their program.
- Completed a change of address online through the Orion Student Services Center in Galaxy.
- Submitted meningitis vaccine requirement form to the Office of the Registrar.
Career Center
utdallas.edu/career
The Career Center offers a variety of services for students at all stages of their career development process. Career consultants meet with students to discuss everything from major selection and interests to internship and job search strategies. The center provides a variety of career workshops and employer networking activities, as well as an online job and internship search database, CometCareers. On-campus student employment and work-study positions are also managed by the Career Center. Students are strongly encouraged to connect with the Career Center early in their academic career.

UT Dallas students received job offers from a list of companies that included but was not limited to the following:

Amazon
American Airlines
Apple
AT&T
Boeing
Cisco Systems
Dallas ISD
Deloitte
Ericsson
Ernst & Young
Expedia
Fidelity Investments
Fujitsu
Google
Groupon
Hewlett Packard
Hotels.com
IBM
Intel

JP Morgan Chase
Mary Kay
Merrill Lynch
Microsoft
Oracle
Popsugar Inc.
Raytheon
Saber
Samsung
Southwest Airlines
State Farm
Texas Instruments
U.S. Federal Government
USAA
UT Southwestern
Verizon
Westinghouse
Yahoo

Student AccessAbility
utdallas.edu/studentaccess
Student AccessAbility ensures that qualified students with documented disabilities have an equal opportunity to participate in educational, recreational and social opportunities at UT Dallas. We are committed to providing equal access for qualified students with disabilities to all University courses and programs.

Health Services
utdallas.edu/healthcenter
The Student Health Center provides quality care for acute and stabilized chronic illnesses, minor injuries, women’s care, allergy injections, pharmacy services, onsite radiology services and preventive health care to all students who are currently enrolled and have paid their tuition and fees for the semester. It also provides health education and preventive medicine. Visits are free. Care is provided by a staff of licensed, registered and certified professionals. Currently enrolled students are required to pay a medical service fee, which allows them to schedule office visits at no additional costs. Nominal fees may be assessed for medications, lab work, medical supplies and other procedures as needed.

Recreational Sports
utdallas.edu/recsports
Students are encouraged to participate in recreational activities to foster healthy lifestyles, sportsmanship, teamwork and leadership. The Activity Center contains a state-of-the-art fitness center, four racquetball courts, two squash courts, four basketball courts, a multi-purpose room, a climbing wall and a 25-yard indoor swimming pool. In addition, there are outdoor basketball courts, sand volleyball courts, soccer fields, tennis courts, softball fields and baseball fields. Recreation Center West is an additional facility located near the residence halls.

Student Counseling Center
utdallas.edu/counseling
The Student Counseling Center provides programs and services designed to help students achieve greater emotional well-being to enhance their chances of success. Counselors help students manage academic and personal demands more effectively. A licensed psychiatrist, psychologists and counselors are available by appointment or in times of emergency. All counseling is confidential.
Student Volunteerism
utdallas.edu/volunteer
The Office of Student Volunteerism (OSV) provides UT Dallas students year-round, on and off-campus educational volunteer opportunities. No membership is required to participate in any Office of Student Volunteerism activity, but students must register for each event to confirm volunteer spot. OSV programs and events include, but are not limited to, the following:

- Alternative Spring Break
- Earth Week
- Educational Outreach via service leadership workshops, advocacy and awareness booths, and presentations
- Environmental Initiatives such as Operation Upcycle, Adopt-a-Highway, Butterfly Flutterby, and Donation Drives
- Freshmen Engaged in Service Together (FEST)
- National Hunger and Homelessness Awareness Week
- National Volunteer Week
- OSV Student Leadership Program
- Recurring Events Program with local nonprofit and community agencies including Breads & Threads, Hearts on Health, Homework Helpers, Pet Pals, and Tech Tutors
- Special Projects such as Bone Marrow Donor Drive, Scarves for the Homeless, Holiday Helpers, and Hats for Hope
- UT Dallas Community Garden
- Viva Volunteer
- Volunteer Expo

Monthly recurring opportunities may include group volunteer sessions at an animal shelter, sorting donations at a food pantry, tutoring and mentoring youth, making seasonal arts and crafts, providing assistance to the elderly, and performing environmental conservation projects.

Students seeking additional local volunteer opportunities may search CometCareers, OrgSync and the Volunteer Center of North Texas database.

Transfer Student Services
utdallas.edu/transfer
cervices
The Transfer Student Services Office offers support to new and returning transfer students.

Student Government
utdallas.edu/sg
Student Government ensures that the University focuses on serving the collective interests of the student body and is the official student voice to UT Dallas administration, the UT System Board of Regents and other governmental entities. Student Government seeks to enhance spirit, protect University traditions and support all students in their academic and community-directed endeavors.

Fraternity and Sorority Life
utdallas.edu/gogreek
UT Dallas is home to 24 national Greek fraternities and sororities. These organizations provide students with friendship, guidance and leadership opportunities that last beyond college.

Residential Life
utdallas.edu/reslife
The Office of Residential Life and its student support team of peer advisors are committed to seeing that every campus resident has a comfortable and welcoming environment in which to live and learn.

Comet Spirit
utdallas.edu/spirit
The Comet Spirit Program supports UT Dallas athletic teams by generating crowd enthusiasm and fostering school spirit. The Power Dancers — the official dance team of UT Dallas — perform hip-hop, jazz, pom and other dance styles for varsity basketball games. The UT Dallas Cheerleaders cheer for volleyball and men’s and women’s basketball games. Both groups make numerous appearances at on- and off-campus events.

Student Union and Activities Advisory Board
utdallas.edu/suaab
The Student Union and Activities Advisory Board (SUAAB) offers a variety of events to promote student participation, including the UT Dallas homecoming dance, Casino Night, Springapalooza, movies, comedians, concerts and pep rallies.
Student Media
utdallas.edu/studentmedia

The Mercury publishes biweekly on Mondays throughout the school year. The newspaper offers paid positions for writers, editors, graphic designers and photographers.

Radio UTD, a student-run, Internet-based radio station, features an eclectic and freeform mix of music and talk programming, as well as an online music blog.

UTD TV broadcasts news, entertainment and other online media content produced by students.

AMP, the University’s student opinion magazine, prints monthly throughout the school year. The paper provides a mix of humorous and poignant commentary on social, political and pop culture topics.

New Student Programs
utdallas.edu/newstudentprograms

New Student Programs offers orientations, programs, advice and peer support to give new students a strong start in their University career and helps keep them fully informed and confident about what to expect during their time at UT Dallas.

Housing
utdallas.edu/housing

Living on campus can be a perfect way to transition to college life. It offers students greater freedom and more responsibility in a fun environment that helps them discover more about themselves and make friends in the process.

University Village and University Commons offer students the convenience and comforts of home, within walking distance of class.

Freshmen who choose to live on campus are required to reside in one of our University Commons’ residence halls.

The halls feature three-bedroom, single-bath suites. The furnished suites include a shared entry, a living area with built-in counters and an alcove for students to place a small refrigerator. The suites also have a shared bathroom with a private shower and toilet, and a vanity with three sinks. In addition, the residence halls have large, open communal spaces and numerous study areas.

UT Dallas offers incoming freshmen the opportunity to participate in one of our Living Learning Communities (LLC). LLCs are groups of freshmen who share common academic goals. Students involved in these communities will live in the LLC residence hall, have the opportunity to enroll in classes together, interact with faculty and participate in group activities, such as service projects and social events.

As part of on-campus housing, Residential Life offers programs designed to provide a sense of community for its residents. On move in day, peer advisors (PA) help students meet neighbors, get involved and acclimate to campus. PAs are student leaders whose responsibilities include programming, mediating roommate conflicts, providing on-call coverage and an after-hours presence in the community.

For details about how to apply for incoming freshman housing, see utdallas.edu/housing. For more information, contact Residential Life at 972-883-7430 or reslife@utdallas.edu.

For sophomores, juniors, seniors and graduate students, housing is available in the University Commons residence halls or University Village apartments.

Dining
utdallas.edu/dining

All students living in University Commons are required to purchase a University meal plan.

Dining Hall West, conveniently located in close proximity to the residence halls, is a 69,000-square-foot dining space featuring several action cooking stations and healthy options for students, faculty and staff to mingle, relax and dine. Also housed in this facility — and open late — is Papa John’s pizza and a convenience store. All are open seven days a week.

Students not required to participate in the meal plan program can choose to purchase one of a variety of optional meal plans. Meal plans offer all variety, value and flexibility for use in any of our many food venues on campus.
University Commons Residence Halls

Below is a sample floor plan. Layout and dimensions may vary.

Sample Suite Plan

University Village Apartments

There are a mix of apartment floor plans available, from one-to-four bedrooms, ranging from 384 to 1,269 square feet. Below are sample floor plans. Layouts and dimensions may vary. For more information visit utdallas.edu/housing

**Student Organizations**

There are more than 300 student organizations at UT Dallas in the following categories:

- **Academic Interest** — Provide support for academic subjects.
- **Arts and Music** — Promote the enjoyment and performance of art and music.
- **Club Sports** — Promote and develop common sports or recreation-related interests.
- **Cultural** — Provide support for students of various ethnic groups during their academic careers and promote cultural understanding.
- **Departmental/Educational** — Promote the attainment of academic and professional excellence and establish a liaison between a particular school and the University.
- **Greek** — Fraternities and sororities.
- **Honor** — Intended for students who are pursuing a particular field of study or who demonstrate a high level of academic achievement.
- **Political** — Provide a means for students to support political issues, political parties and candidates seeking office.
- **Recreation** — Provide athletic-oriented programs and recreational activities.
- **Religious** — Provide a means for students of a particular denomination or religious affiliation to interact with others.
- **Service** — Provide volunteers for on-campus and off-campus service projects.
- **Special Interest** — Focus on a specific interest or topic.
- **Sponsored** — Organizations that are funded by the University (SUAAB, Student Government, Spirit—Cheerleaders, Crush, Power Dancers).

Diversity and Community Engagement
utdallas.edu/diversity
The Office of Diversity and Community Engagement seeks to attract, retain and engage an array of talented people to all levels of the University. It focuses on preparing students to live and work in a diverse global society and to appreciate and celebrate the richness of various cultures.

The office helps to create a culture that fosters inclusiveness and opportunity. Its promotion of faculty diversity, institutional initiatives and community engagement, as well as programs and services offered through two centers, benefits the University and the greater community.

Community Engagement
utdallas.edu/community
The Office of Community Engagement provides SAT preparation classes, mentoring to high school students, college tours and hands-on assistance with admissions and financial aid applications for underrepresented minority students. This office also manages the Diversity Scholarship Program, targeting students with a proven record of academic excellence and demonstrated financial need.

Multicultural Center
utdallas.edu/multicultural
The Multicultural Center provides a variety of quality cultural programs, educational resources, leadership opportunities and support services. Staffed by full-time professionals and student workers, the center offers a comfortably furnished lounge area for organizational and group meetings.

Galerstein Women’s Center
utdallas.edu/womenscenter
Services and events initiated by the Galerstein Women’s Center increase awareness of gender issues and advocate for an inclusive, safe and diverse environment. As part of its services, the center plans programs to increase campus awareness around lesbian, gay, bisexual and transgender issues at the University through programming and support services. The center also provides professional, confidential counseling, as well as guidance, support, advisement and resource referral for students, faculty and staff.
Registrar

The Registrar oversees student registration and maintains academic records, including: changes of grades, majors, enrollment verifications, transcript requests, transfer work equivalency and degree conferrals.

The Office of the Registrar provides information about graduation and diploma-related services, Texas residency and commonly used academic forms.

Establishing Texas Residency

Under Texas state law, an applicant or enrolled student is classified as a resident of Texas, a nonresident or a foreign student. Residency, for admission and tuition purposes at a public college or university in Texas, is different from residency for voting or taxation purposes.

To qualify as a Texas resident, an individual must live in Texas for 12 continuous months and establish a residency in Texas the 12 months prior to census date. An applicant or student who is claimed as a dependent on a parent’s most recent federal tax return will be classified based on the parent’s qualifications for residency.

International students eligible to establish legal residency in Texas also may qualify for Texas residency status; see utdallas.edu/registrar/residency for details. If students are classified as a nonresident and feel they meet residency requirements, they may petition for reclassification by completing the Residency Core Questions online before the first day of class for the current term. For further questions, please email residency@utdallas.edu.

Due to the changing nature of residency requirements, please review any updates or changes on the Texas Higher Education Coordinating Board website at collegefortexans.com.
Visit UT Dallas

Campus Tours
Freshman-looking tours of campus are offered each weekday, except University holidays, at 10 a.m. and 2 p.m. Tours last approximately one hour and include highlights of the University’s academic programs, student life activities, construction projects and unique campus housing. Housing tours are offered each weekday at 11 a.m. and 3 p.m. beginning at Residence Hall West. High school groups may prearrange for weekday tours. To schedule a visit, go to utdallas.edu/tours. You can also view our virtual tour of utdallas.edu/virtualtour.

Prospective Student Events

Discover UT Dallas

Discover UT Dallas is hosted in several major cities across Texas to provide an introductory look into the university’s academic and social opportunities for students at UT Dallas. This event is specifically designed for high school students, parents and community college students and will be held throughout September and October.

Scholars’ Day

Scholars’ Day is a premier open house event designed to show students and their families the University of Texas at Dallas. At this event, prospective students and their families have the opportunity to tour the University and interact with faculty and staff. High school students and current students are encouraged to show their interest in the University by attending Scholars’ Day and applying for admission. For more information or to register for an event, visit: utdallas.edu/enroll/events.

Prospective Student Events

Discover UT Dallas
University of Texas Dallas offers several campus visit options that provide a personalized look into the academic and social opportunities for students at UT Dallas. This event is specifically designed for high school students, parents and community college students and is held throughout September and October.

Scholar’s Day
Scholar’s Day at UT Dallas is a premier open house event designed to showcase the University to prospective students and their families. At this event, guests are invited to tour the UT Dallas campus, attend academic and student life sessions led by UT Dallas faculty and staff members and meet current students in student organization. High school senior and community college students who attend the program can receive an application fee waiver for the upcoming fall semester.

Preview Friday
Preview Friday is hosted at UT Dallas and is designed for current and former college students interested in transferring into UT Dallas. Students receive detailed information about the transfer admission process, transfer credit, scholarships, financial aid and campus life. Students and family members may also attend an academic presentation given by their academic department of choice. Transfer students who attend Preview Friday may be eligible for a $50 application fee waiver for the next long semester.

For more information or to register for an event, go to utdallas.edu/enroll/events.
