

Master of Science in International Political Economy

In today's world, politics and the economy are intertwined. The MS in IPE degree offers you an education to succeed in this dynamic, global workforce. In addition to providing strong analysis and evaluation skills, you will gain exposure to both knowledge of different geographic regions and issues of development, security, and international policy. More than a half a million employees will leave the government in the next five years, every firm has a global component, and non-profits need people with a broad perspective. You will increase your education through internships, critical analysis and communication skills that will help you succeed regardless of the changes in the world around you. We look forward to helping you reach your goals. Welcome to UTDallas, EPPS and IPE.

University of Pennsylvania

MS in IPE at UTDallas

You will develop critical skill sets necessary to meet the needs and demands of the international diplomatic and business sectors, which include critical thinking skills, knowledge of multiple cultures and cultural contexts, rigorous research skills and the ability to communicate effectively in an array of environments. In addition to your focus on a single region, you will also study a theme concentration in development, international business and public policy, international negotiations or security studies.

The program is 36 hours:

- 18 hours of required core
- 12 hours of prescribed electives
- 6 hours of electives

Detailed information is available at:
<http://epps.utdallas.edu/pppe/>
