Project Description

This phase of student housing is a site adaptation of the design of three successful previous phases and proposes to add approximately 150,000 gross square feet (GSF) to house 400 students as well as classrooms, gathering spaces, and offices to support living and learning communities. These beds will be reserved for use by incoming freshman students. The project will also include parking, connector roads, outdoor recreational facilities, and minor improvements to the existing food service facility to accommodate these additional full meal plan students.
