William Fuller Collection, History of Aviation Collection, Special Collections Department, McDermott Library, The University of Texas at Dallas.

Series Description

Series I: Aircraft Manufacturer's Collection. 99.2 linear feet.

Thirty-two drawers, 35 x 15 x 9. This collection is arranged alphabetically by manufacturer.

Scope and Content

The Aircraft Manufacturer's Collection is housed in thirty-two horizontal file cabinet drawers and is arranged alphabetically by manufacturer. Materials in this collection are composed of photographs, brochures, advertisements, press kits, and some manufacturer's records.

This collection is not limited to aircraft built in the United States. Other nations include Great Britain, France, Soviet Union, Japan, and Germany. The time period spans from early aviation to current day and includes military and civilian aircraft of all types.

The researcher should also note that from time to time new material will be added to this collection.

Provenance Statement

The Aircraft Manufacturer's Collection is an artificial collection composed of duplicate material from various collections, photographs and documents removed from various collections, and materials from orphan collections. Most material removed from collections has notations stating from what collection they were removed.

Literary Rights Statement

Permission to publish material from this collection in any form, current or future, must be obtained from the Special Collections Department, McDermott Library, The University of Texas at Dallas.

Note to the Researcher

Oversize materials are located in Oversize Drawers 31 and 32. Check the oversize drawer list in addition to the regular drawer lists for aircraft manufacturers in which you are interested.

It is the researcher's responsibility to secure permission from copyright holders of materials to which this institution does not own copyright
