					(BA only)		3		
					(BA only)		3		
					(BA only)		2		

<sup>1</sup> It is recommended that students take an UL advanced writing elective in the major (i.e., BIOL 4337 Seminal Papers in Bio, BIOL 4390 Sr. Research & Advanced Writing, or BIOL 4399 Sr. Honors Research & Thesis) to satisfy this requirement. See advisor for alternatives.

<sup>2</sup> See advisor for a list of approved core courses, which may be taken at the lower or upper level. UL is recommended transfer students in order to meet the 51 UL credit hour graduation requirement.

<sup>3</sup> For the BA, the math requirement may be satisfied with 6 hrs of Applied Calculus I (MATH 1325) & Statistics for Life Sciences (STAT 3332).

<sup>4</sup> Satisfies the Advanced Elective requirement.

<sup>5</sup> For the BA, the physics requirement may be satisfied with algebra-based College Physics I & II with lab (PHYS 1301, 1302, 1101, 1102).

<sup>6</sup> General Microbiology Lab (2 hrs) and Microbial Physiology may be used to satisfy the Biochemistry II and Cell Biology Lab requirements of the major and replaced with Organic Chemistry hrs for the minor.

<sup>7</sup> Sufficient Organic Chemistry I and II hours are included to satisfy the 18 hour **Minor requirement**

<sup>8</sup> These UL hours are to meet the 51 UL hour graduation requirement. May be taken at LL if compensatory UL hours are taken among core curriculum requirements.

TRANSFERRED HOURS: LL \_\_\_\_\_ UL \_\_\_\_\_  
 UTD HOURS: LL \_\_\_\_\_ UL \_\_\_\_\_  
 MINIMUM SEMESTER HOURS: 124\* (51 Hours Required at UL)  
 \*Transfer students w/8 hours in Biology I & II w/lab may graduate w/a minimum of 122 hours.
