

REGISTRATION AUTHORIZATION FORM

Graduate Students: This form should be downloaded and filled out each semester before registering for classes. After completing the form, schedule a meeting with the appropriate graduate advisor (Professor Chaney for the MS/PhD track, Professor Earle for the MSAP track) to obtain an approval signature. PhD track students will also need to obtain an approval signature from the professor who supervises their research. After obtaining the necessary approvals, sign the form and take it to Ms. Margie Renfrow in the physics graduate office to complete the registration process.
