Wrapping up the Semester

- Course Evaluations must be completed during a class period by someone other than the instructor. Nominate a student to distribute, collect, & deliver the evaluations.

- Grades are to be submitted online
  - Check the Academic Calendar [http://www.utdallas.edu/student/registrar/calendar/](http://www.utdallas.edu/student/registrar/calendar/) for grade submission deadlines

- Final Exams
  - Giving final examinations during class hours diminishes the number of class hours and creates a conflict with SACS and THECB rules. It is still possible to give an examination that lasts no more than one normal class period during the last week of class, as part of our usual evaluation of student progress.
  - If a final examination is given in a course, it must be given at the time scheduled by the Registrar’s office during the final examination period. A final examination must not last more than 2 hours and 45 minutes. Students for whom more than three final examinations are scheduled in one day may petition to take the additional final examinations on different days.
  - No exams may be given or assignment deadlines scheduled during dead days.

- Reporting of assessments to an Associate Dean, Department Chair, Course Coordinator, and/or through the tools AT6:
