Heart Disease in Women

Heart disease is the number one killer of women in the U.S. which is why Texas Health Resources has teamed with the American Heart Association on the Go Red For Women® initiative to fight heart disease. Join us for free lectures in the month of February listed below and learn how to manage your risk for heart and vascular disease. For a description of each lecture, to register or to learn about lectures at other Texas Health locations, visit TexasHealth.org/Advances or call 1-877-THR-WELL.
