Conference Proceedings

* S. Zhang, I.-L. Yen, and F.B. Bastani, “Toward semantic enhancement of monitoring data repository,” *Proc. 10th IEEE Intl. Conf. on Semantic Computing (ICSC 2016)*, Laguna Hills, CA, Feb. 3-5,
2016, pp. 140-147.

* Y. Ye, L. Xiao, I.-L. Yen, F. Bastani, “Secure, dependable, and high performance cloud storage,” Proc. IEEE 29th Symposium on Reliable Distributed Systems (SRDS 2010), New Delhi, India,

* T. Gao, H. Ma, I.-L. Yen, F.B. Bastani, W.-T. Tsai, “Toward QoS analysis of adaptive service-oriented architecture,” IEEE Intl. Workshop on Service-Oriented System Engineering (SOSE), Beijing,

* Q. Ma, W. Hao, I.-L. Yen, and F.B. Bastani, “Multiparty computation with full computation power and reduced overhead,”

* S. Kim, F.B. Bastani, I.-L. Yen, I.-R. Chen “High-Assurance Synthesis of Security Services from Basic Microservices,”

* D. Wang, F.B. Bastani, I.-L. Yen, “An architecture for composing high performance data processing programs in sensor networks,”

* D. Wang, F.B. Bastani, and I.-L. Yen, “Relational program architecture for high quality software development,”

* I.-L. Yen, F.B. Bastani, F. Mohammed, and H. Ma, “Application of AI planning techniques to automated code synthesis and testing,”

* I.-L. Yen, J. Goluguri, F. Bastani, L. Khan, and J. Linn, “A component-based approach for embedded software development,”
  Prof. IEEE Int. Symp. on Object-oriented Real-time Systems (ISORC),
