Game Theory: Books on my shelf (I hope!)

R. Chandrasekaran

In this course we will study about competition, cooperation, and rational decision making when more than one set of interests are involved.

List of books in my shelf:

1. Game Theory by G. Owen (Third Edition), Academic Press 1995 [I also have a copy of both the first and second editions]

2. Game Theory by D. Fudenberg and J. Tirole, MIT Press 1993

4. Games and Decisions by D. Luce and H. Raiffa, Harvard University Press 1967

15. Game Theory Topics – Incomplete Information, Repeated Games, and n-Player Games: Evelyn C. Fink, Scott Gates, and Brian D. Humes, Sage University Press, 1998
