GROUP FORMATION : CS 6363

The following rules apply for assignments:

1. Students are permitted to submit assignments in groups; this is not required but optional.

2. All groups will consist of at least three and no more than five students.

3. Instructions for groups:
   - Each student MUST attempt all questions ALONE first and then discuss among themselves and submit ONLY ONE submission per group per assignment. All assignments must be signed by all members.
   - One member of the group will be called by the TA to explain the work of the group.
   - ALL members of the group get the same grade for the assignment and this grade depends on a combination of the quality of the submission and the explanation of the selected member.
   - Each group will submit the names and signatures of its members to Chandrasekaran using paper (in class) and email.

4. Single member groups will need only a submission for each assignment.
