List of publications of Dr. Dmitry Rachinskiy

BOOK CHAPTERS:

PAPERS:

55. A. M. Krasnosel’skii, D. I. Rachinskii, On a nonlocal condition for existence of cycles of systems with hysteresis, Automat. Remote Control 64, 2003, No. 2, part 1,

90. P. Krejci, P. O’Kane, A. Pokrovskii, D. Rachinskii, Properties of solutions to a

93. E. O’Grady, A. Krasnosel’ski, A. Pokrovskii, D. Rachinskii, Periodic canard trajectories with multiple segments following the unstable part of critical manifold, Discrete and Continuous Dynamical Systems B 18, No. 2, 2013, 467-482.

94. A. Pokrovskii, D. Rachinskii, Effect of positive feedback on Devil’s staircase input-output relationship, Discrete and Continuous Dynamical Systems S 6, No. 4, 2013, 1095-1112.

PAPERS IN REFEREED CONFERENCE PROCEEDINGS:

130. S. O’Ceallaigh, A. Krasnosel’skii, A. Pimenov, D. Rachinskii, Fold bifurcations and linear stability analysis in systems with Preisach hysteresis, in “Rate-Independent Evolutions and Material Modeling” (Special Section of EQUADIFF 2007), T. Roubiček and U. Stefanelli (Eds.), Pubblicazione IMATI-CNR, 29PV10/27/0, Pavia, ISSN 1772-8964, 2010, 39-44.

136. D. Rachinskii, A. Amann, M. Brokate, S. McCarthy, Cascading effects in the moving Preisach model, American Control Conference (ACC), Washington, DC, USA,

PAPERS ACCEPTED AND SUBMITTED:

151. D. Rachinskii, On geometric conditions for reduction of the Moreau sweeping process to the Prandtl-Ishlinskii operator, arXiv:1611.07099; Discrete & Continuous Dynamical Systems B, accepted.

152. Z. Balanov, P. Kravetc, W. Krawcewicz, D. Rachinskii, Hopf bifurcation from
relative equilibria: Case study of a ring of passively mode-locked lasers, arXiv:1703.09154; J. Differential Equations, accepted.

PREPRINTS:

EDUCATIONAL PAPERS:

167. D. Rachinskii, My teacher M. A. Krasnosel’skii, in “Mark Alexandrovich Krasnosel’skii, dedicated to his 80-th anniversary”, A. M. Krasnosel’skii (Ed.), Moscow, URSS,

CONTRIBUTIONS TO CONFERENCES:

C3. a. Rachinskii, D.I. Forced periodic oscillations in systems with the Mroz hysteresis nonlinearity;

C7. a. Rachinskii, D.I. On periodic problems with hysteresis;

C20. a. O’Kane, P., Krejci, P., Pokrovskii, A., Rachinskii, D. Hydrological models with hysteresis: some dynamical aspects;
   b. Appelbe, B., Rachinskii, D., Zhezherun, A. Model of Van der Pol oscillator with hysteresis in inductance; Experimental investigation of multiple cycles in Van der Pol oscillator system with hysteresis in inductance.

C21. a. Rachinskii, D. Equations with time derivatives of the Preisach operator;

C23. a. Cross, R., McNamara, H., Pokrovskii, A., Rachinskii, D. A new paradigm for modelling hysteresis in macroeconomic flows;

b. Appelbe, B., Rachinskii, D., Zhezherun, A. Hopf bifurcation in a van der Pol type oscillator with magnetic hysteresis;

International Conference on Differential Equations (EQUADIFF 2007), Vienna, Austria, August 2007.

C42. a. Amann, A., Rachinskii, D., Temnov, G. Distribution of return point memory states for systems with stochastic inputs;
   b. Balanov, Z., Krawcewicz, W., Rachinskii, D. Hopf bifurcation in hysteresis models for symmetric networks of coupled identical Van der Pol oscillators with ferromagnetic core: twisted equivariant degree approach;

C43. a. Rachinskii, D. Memories of Alexei Pokrovskii: biography, hysteresis and mathematical work;
   b. Amann, A., Brokate, M., McCarthy, S., Rachinskii, D., Temnov, G. Characterization of the memory states of the Preisach operator with stochastic inputs;

   b. McCarthy, S., Rachinskii, D., Examination of bacteria growth in varying environment;
   c. O’Grady, E., Culloty, S., Kelly, T., O’Callaghan, M. J. A., Rachinskii, D. Modelling of threshold behaviour in a fluke-hyperparasite system in a shell fish;

C46. a. Rachinskii, D. Transition from equilibrium to pulsating dynamics in slow-fast delayed systems;
    b. O’Grady, E., Culloty, S., Kelly, T., Rachinskii, D. Modelling threshold effect in a parasite-hyperparasite system in the cockle;
    c. McCarthy, S., Rachinskii, D. Examination of switching behavior of a two-phenotype bacterium in a varying environment.

C50. Gurevich, P., Rachinskii, D., Reaction-diffusion equations containing hysteresis with diffusive thresholds, 9th International Symposium on Hysteresis Modelling and Micromagnetics (HMM 2013), May 2013, Taormina, Italy.

C52. a. Rachinskii, D., Friedman, G., Gurevich, P., Memory in switching two-phenotype population;
    b. Pimenov, A., Korobeinikov, A., Rachinskii, D., Modelling permanent effects of a temporary stimulus (PETS) in predator-prey and SIR systems;
International Conference on Differential Equations (EQUADIFF 2013), Prague, Czech Republic, August 2013.

C53. a. Rachinskii, D., Krejci, P., Lamba, H., Melnik, S. Networks of Prandtl-Ishlinskii operators;
b. Pimenov, A., Rachinskii, D. Robust homocline in a predator-prey system with hysteresis;

c. Friedman, G., McCarthy, S., Rachinskii, D. Hysteresis and bet-hedging in stochastic environments;

International Workshop on Multi-Rate Processes & Hysteresis MURPHYS-HSFS’14, Berlin, Germany, April 7-11, 2014.

C55. Rachinskii, D. Discontinuous Prandtl-Ishlinskii operators and their network connections. Workshop on Rate independent processes and evolution, June 24-26, 2014, Prague, Czech Republic.

C57. Rachinskii, D. Population dynamics with the Preisach operator, SIAM Conference on Applications of Dynamical Systems, May 17-21, 2015, Snowbird, UT, US.

C60. Rachinskii, D. Minicourse of lectures on Modeling and Analysis of Hysteresis Phenomena, Summer School on Nonsmooth Dynamical Systems, August 4-6, 2015, Dallas, US.

C62. a. Hooton, E., Balanov, Z., Krawcewicz, W., Rachinskii, D. Sliding Hopf bifurcation in interval systems;

b. Kravetc, P., Rachinskii, D., Vladimirov, A. Formation of pulses through a cascade of Hopf bifurcations in population models with delay; Texas Analysis and Mathematical Physics Symposium, November 6-8, 2015, Dallas, US.

C64. K. Fathian, D. Rachinskii, T. H. Summers, M. Spong, N. R. Gans, Distributed formation control using local position measurements, Texas Systems Day 2016, April 8, 2016, Austin, TX, USA.

C65. a. D. Rachinskii, On a relationship between the Moreau sweeping process and the Prandtl-Ishlinskii operator;

b. P. Kravetc, D. Rachinskii, Traveling waves in a chain of excitable switches; School/Workshop on Applicable Theory of Switched Systems, June 6-10, 2016, Dallas, USA.
C66. a. D. Rachinskii, On geometric conditions for reduction of the Moreau sweeping process to the Prandtl-Ishlinskii operator;
b. R. Cross, D. Rachinskii, L. Rios, An experimental test of hysteresis arising from social interactions within a firm;
International Workshop on Multi-Rate Processes & Hysteresis MURPHYS-HSFS’16, Barcelona, Spain, June 13-17, 2016.
C72. a. D. Rachinskii, Global branches of periodic solutions for equations with sector estimates of nonlinearities;
b. Z. Balanov, E. Hooton, W. Krawcewicz, D. Rachinskii, Hopf bifurcation of relative equilibria and relative periodic solutions in FDEs: equivariant degree approach;
c. Z. Balanov, E. Hooton, W. Krawcewicz, D. Rachinskii, Stabilization of periodic solutions in equivariant settings via time-delayed feedback;
d. Z. Balanov, P. Kravetc, W. Krawcewicz, D. Rachinskii; Relative periodic solutions in systems of coupled lasers;
