### **Summer 2012 Actuarial Internship**

**Addison, Texas**

#### **Summer Projects**

- Work to create and automate a new experience study/trend analysis report. Collect historical data and analyze for trends. Study claims and premium playing patterns by line of business. Design user friendly format and automate so that report can be updated easily each quarter. Check data and results for reasonableness.
- Intern position will be open for approximately 10 weeks in summer 2012.

#### **Job Requirements**

- Passed at least 1 actuarial exam
- Skilled in Excel
- Some database familiarity (SQL Server/MS Access) is useful
- Familiarity with insurance products would be useful, but not required
- Quick learner
- Attention to detail, curious
- Strong communication and writing skills; can create documentation
- Can follow guidance well
- Able to automate spreadsheets
- Authorization to work in the U.S.
