Naveen Jindal School of Management
Master of Science in Innovation and Entrepreneurship

Curriculum
The MS in Innovation and Entrepreneurship (MSIE) degree is a 36-credit-hour degree program at the Naveen Jindal School of Management. The MSIE prepares students for careers in new venture development, entrepreneurial finance, angel or venture capital investment, or in innovation-related roles in established organizations (such as strategic marketing, product marketing, business development and project management).

The UT Dallas graduate Innovation and Entrepreneurship degree program is:

- Recognized as 2014 National Model Master’s Program by the United States Association for Small Business and Entrepreneurship (USASBE). UT Dallas is one of only 22 universities to receive this award since 1990.
- Recognized with a 2014 Award for Excellence in Entrepreneurial Teaching and Pedagogical Innovation by Global Consortium of Entrepreneurship Centers (GCEC).
- Offering experienced-based courses such as Startup Launch, which enables students to launch companies while receiving academic credits. Students with scalable concepts can apply for up to $25,000 in funding to support their launch.

The MSIE lets students choose between two focus areas: 1) The New Venture concentration or 2) The Innovation within the Corporation concentration. The program emphasizes technology-based innovation, consistent with, and complementary to, UT Dallas’ strengths in science, engineering, computer science and management disciplines.

Career Options
Graduates of the program seek such positions as: leadership executives in global firms and “intrapreneural” innovation-driven driving positions in established companies and self-employment startup venture.

Degree Program
The MS in Innovation and Entrepreneurship requires the completion of a minimum of 36 semester credit hours. For complete admission and degree requirements, view the MSIE academic website, the Graduate Catalog at catalog.utdallas.edu and the UTD admission requirements provided below.
