

School of Economic, Political and Policy Sciences

Doctor of Philosophy in Economics

Curriculum

The PhD in Economics degree program provides a cutting-edge education in economic theories and the development of a rigorous toolkit of mathematical and econometric techniques. Students also gain extensive exposure to various research areas in economics that allow them to think critically about how to approach the analysis of economic problems and contribute to the knowledge base of the discipline. The program is particularly strong in the areas of public economics, applied microeconomics, macroeconomics, data analysis, and the economics of conflict.

Career Options

Graduates of the program seek positions such as: academic, data analyst, economist in financial institutions, management firms, and consulting firms both in private and domestic sector, academics and researcher and government positions (the Federal Reserve banks, Bureau of Labor Statistics, Census Bureau, Social Security Administration and Federal Trade Commission.)

Degree Program

The PhD in Economics requires 75 semester credit hours minimum beyond the baccalaureate degree and successful defense of one's dissertation. For complete admission and degree requirements, view the Graduate Catalog at catalog.utdallas.edu.
