The UTD Io template has a prominent UTD logo mark, with strong site identity text just to the right of the logo. Emphasis on the navigation bar is achieved by adding a dark green background bar behind white text navigation links. The hero area can be customized to fit the full width of the browser window or stop short where the photo lines up with the width of the content area. The above example demonstrates how a call-to-action area can be placed over the hero photo.
