KAREN E. KAPLAN, M.A., CCC/SLP
Karen has been a practicing Speech-Language Pathologist for over 45 years. She is currently on the faculty of the Department of Communication Disorders at the University of Texas at Dallas, where she teaches classes and supervises the clinical training of undergraduate and graduate students. Karen has extensive experience in the area of diagnosis and treatment of speech disorders in children and adults and has provided continuing education training for preschool teachers and clinical professionals interested in this area.

Students from the Department of Communication Disorders trained in Articulation assessment and intervention will provide therapy under the guidance of the clinical faculty.

The University of Texas at Dallas is an equal opportunity facility.

A PROGRAM FOR CHILDREN WITH SPEECH THAT IS DIFFICULT TO UNDERSTAND
SPEECH STARS IS....

- An enjoyable atmosphere which will facilitate learning for young children
- A comprehensive therapy program combining individual and group therapy

SPEECH STARS is designed for...

- Preschool children who have speech that is difficult to understand
- Children who are too old for ECI programs and not yet old enough for elementary school

Program Goals

Speech Stars is a way for preschool children to:

- Develop oral motor skills and strength to carry out accurate movement of the lips, tongue, cheeks, and muscles of the mouth area
- Increase awareness of appropriate phonological patterns
- Promote phonemic awareness in preparation for reading

Program will include:

- A complete assessment of sound production capabilities
- Two hours of therapy time, twice weekly
- Individual and group therapy

Enrollment

Eligibility for this program will be determined by the faculty after a screening interview with parents. If you feel that your child may qualify, please contact us:
