Off-Campus TB Testing

The University of Texas at Dallas Student Health Center requires all persons born outside the United States to have an IGRA blood test (QuantiFERON or T-Spot) for TB screening to rule out TB, prior to registering for classes their first semester at UT Dallas. The student is responsible for having the required testing and for any related costs. Screening for TB must be administered and interpreted in the United States, regardless of prior BCG vaccination, within six (6) months of registration. You may mail, fax or email the completed form (allow sufficient time) to the Student Health Center. Students who do not complete the screening for tuberculosis, an IGRA blood test, will not be allowed to register for classes.

- The only acceptable TB screening option for international students registering for classes is the Interferon Gamma Release Assay (IGRA) blood test (T-Spot or Quantiferon TB Gold Plus).
- Please complete the Off-campus TB Screening Form and have the medical provider sign where indicated.
- Please email the form, along with a copy of your lab results to healthcen@utdallas.edu or fax the forms to (972) 883-2069.
- No results will be accepted or given over the phone.
