Air America De Havilland DHC-3 Otters were mentioned by Robbins, *Air America*, p.108, but not mentioned by *Flight*. Air America did not use DHC-3 Otters, but only DHC-6 Twin Otters. The official Company designator of the DHC-6 was, however, “Otter”, not Twin Otter (see: NOTAM dated 13 September 72, in: UTD/Severson/B1F4), and this explains, why the “Otter” was mentioned.
