Welcome to Graduate Career Services in the Office of Graduate Studies at UT Dallas. Our office provides resources to help graduate students and postdoctoral scholars prepare, plan, and execute their job search, whether in academia, industry, or elsewhere.

Graduate Career Services offers numerous workshops throughout the year on topics such as self-assessment, career exploration, networking, and job applications.

Director of Graduate Career Services, Rob Pearson, is available to meet with students individually or in groups. He can be reached by email at robert.pearson@utdallas.edu.
Workshops in the Career Planning Series introduce graduate students and postdoctoral scholars to the fundamental processes involved in finding a career at any stage and in any industry. Registration at the OGS gradcareers website is recommended for most events because events often fill to capacity. All workshops take place in FA 2.206.
